I at this infinite moment of all possibilities on offer before me  
As this being alive, relentless on Earth Mother in my amazing human DNA body tech  
Striving now to truly be all I have in my potential to be  
I seek to make the most of this precious, peak awareness era of my short, human existence  
Have begun to realise there is so much more going on beyond what most are able or willing to accept  
I have so many questions that remain unanswered society doesn't seem to even comprehend  
The truth is on this path I realise so much has not been adding up, so much is just not fair  
Not all experiences have been good for me, those I care about or all my human species  
The more I push, the more it becomes obvious, bad escalates, never enduring the consequences I do  
The level of callousness, selfishness, service to self is totally outrageous yet encouraged and rewarded  
I am at the point I see how I and all similar to me have been totally setup for some massive life failure  
Born into what I see now as an unawareness realm, designed to exploit humanity's cultivated naivety  
Comprehending all this is daunting, the way forward unclear, there are few to trust or see  
But, for some reason, only inspires me to push harder than ever before, now, to be the best I can be  
For all that is would not be the case if I am inferior, so, continue the quest to achieve my all despite it  
I am determined to have the most amazing life on Earth Mother possible, I want more, I want my all  
I will no longer hold back, accommodate, settle for what the majority of humanity presently accepts  
Feeling who I presently am is only a minuscule fragment of my totality on offer  
I know that effort, hard work, being good does actually achieve great things and will have its day  
I also sense, somehow, someway, there is an incredible solution state to get to worth it all  
That is superior, efficient, well beyond all that has been doing its best to hold everything and one back  
Inspiring me to seek, uncover, discover, acquire and integrate all sorts of wisdoms along my way  
Beyond what most would allow themselves to ever consider, then expand and ultimately thrive  
It's just been the matter of discovering what the actual truth and context is and has always been  
So, at this potent moment, choose to commit to my path like never before for this to be  
I seek to embark then on what feels like will be the mightiest of worthwhile quests  
With everything on the line, the hour late, resistance great, the pressure on and few committed  
It has not been easy, there have been no guide posts, directions, just a sense of more, I am more  
At times I chose wrong, doubted, faltered, fallen, violated, betrayed and felt I could take no more  
Yet, I have always been able to put myself back together, to take just one more breath  
All are confirming signs I now see of my thoroughness, commitment, will and tenacity to endure  
In territory so few are prepared to even tread  
I will never rest, relent, compromise myself, give up or wilt in my pursuit of my all  
It feels daunting and nourishing at the same time but what a time to be aware and alive  
To have the fire in my will like never before, to go further into my unknown ready to leap off  
I chose now though in this pursuit, to leave no conscious stone unturned as thoroughness is the key  
So, appreciate the need to define, create and establish the safest multidimensional environment

For the ultimate secure foundation to access this totality I sense ripe just out of reach  
To defend the access and integration process of my total vast, presently untapped potential  
Truly appreciating the enormous responsibility being this aware has as well  
I begin by setting my intent to operate at a minimum of a 22nd dimensional level  
That I expand to 1000d as my baseline going forth  
Beginning by opening a 1000d Pure Source Spiritual Assembly for Multiverse Resolution  
I choose to engage the highest level of spiritual responsibility in doing so  
I will only operate at the purist, most responsible spiritual state from this moment on  
I will clean up, heal, recover, overcome any vulnerabilities affecting me yet to be resolved  
I also proactively take full responsibility for all I need to  
Especially anything of a violative nature  
That still may be impacting anything in the multiverse on any level  
By employing everything in his declaration auditing myself as I go at the most demanding level  
Avoided, unresolved angles will no longer be an avenue of exploitation thus vulnerable to sabotage  
As I now declare my sovereignty here at a level I have never done before

For anything that may have any intent to impact on me, now so it is absolutely clear  
I am defining the rules, protocols, boundaries, constraints of what is acceptable up front  
Be it physical, human societal, energetic, multidimensionally, multiverse or any other way  
As well as making it very clear the consequences for any violations past, present and future  
If they are not respected, honoured or adhered to  
Especially if they are conducted at a level well beyond my current level of awareness  
As what I am about to state  
Is THE definition in which I allow any engagement with me going forth in any way, shape or form  
To clear the path for accessing, aligning, anchoring, holding and maintaining  
My Pure Source Infinite Potential State of Existence once and for all  
So it can be realised through me as this mighty human on Earth Mother now  
To be a beacon of what my amazing species, humanity, is truly capable of  
I am not only human, I am the dream that had never even been imagined  
Because it wasn't even considered possible  
Because I AM possible  
I am infinite possibility cranked up ready to roar  
The superior solution state to all universal problems I and all in it are presently up against  
To show all yes, there is another way that is so much more  
I take conscious leadership in doing so when all is at stake  
I will never settle for anything less ever again  
Or tolerate any form of sabotage, hindrance, derailment, misguidance or interference  
As I commit here, now in this reading to only ever operate from this moment on  
As a match to Pure Source's original intent since It has been restored I now have a reference for

Because that is what Infinite Potential is  
A forgotten, corrupted, blocked and erased dream never meant to be perceived  
Because our universe was invaded by very opportunistic and diabolical invaders  
Inviting themselves in, operating from the unknown, elusive and masterful at universal take over  
Who opportunistically struck at the height of our Source's vulnerability  
The origin moment when all future creation and experience potential was birthed  
The moment Pure Source conceived conscious possibility for us all to be here now  
Having no concept of what invasion or contamination was  
Stealing our original source code for all time at the conception moment of its creation to  
Those aligned with the invasion employed this precious, powerful tech as a skeleton key to hack all  
Using it as an all access key to influence, we had no idea we were completely vulnerable to until recently  
Thus accessing freely, corrupting and handicapping all opposition that has existed ever since  
Resulting in us never knowing this level of purity and superiority was available or even achievable  
Because it had never been experienced to aspire to, measure against or reference in recovery  
Contributing massively to our endless setup for failure and suffering I, we have all endured  
To then solidify the settling for less than it all along  
That afforded so much misery, endless suffering and an inability to resist or defend against ever  
Thus being a source for the incessant inferiority complexes and defeatist attitudes  
Compounded by merciless depravity by them I, we all have had to experience and bear witness to  
Grinding my will down into a soul submission level never knowing the disadvantage I had  
Hoping to just eek out any form of peace, stability and avoidance of persecution  
That has never been the case I now see for all these reasons  
Though the fires to experience my all this has never raged  
The spark of this potential state to reach was never totally extinguished  
I have somehow known there was always something more  
That still, in spite of this, has always been the faintest of echo's my soul has truly yearned for  
The indefinable variable empowering me somehow to still push on through all I have endured  
The keys to unlocking and answering to all Great Mystery  
Now Pure Source has been restored as the apex authority in our universe once and for all  
And, Earth Mother herself is finally firmly connected to it and is stronger than ever before  
Making this moment all the more sweeter as I deeply appreciate all this now  
Knowing it wasn't enough to stop me and nothing will be able to ever again  
I ignite the beacons of possibility for all now it is remembered  
To be a tip of the truth and all that is possible spear  
Showing the way to all, you can achieve this as well if you choose  
With the help of my full spiritual team I will begin the process of engaging my all  
Because that IS what Infinite Potential State of existence is  
Eloquent, effortless, efficient, safe, protective, superior and self sustaining  
The truth I know in my soul is the answer state to hold

The solution to ending this ancient ancient war I have never wanted to be a part of  
Due to the origin of these invaders and our inherent corruption they seeded now fully seen  
It is time I do my best to bring about their end for this all to be

As I define my sovereignty aligned with Pure Source's authority to access my Infinite Potential  
I call upon and engage my entire spiritual team  
For your assistance and defense as I forge this potential for myself and all  
I expand my entourage to include the entire multidimensional support network on offer  
That includes all proven variables I have worked with in the past  
As well as some new and very powerful allies superior to anything invasion aligned  
That I may have never formally engaged with up until this point  
But am incredibly grateful for your assistance now as I take my authority back  
I invite you to stand with me as I declare my Infinite Potential sovereignty  
Working with this 1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened  
Including all my true Earth Mother and Pure Source aligned allies  
I invite Earth Mother's true soul connected and anchoring Pure Source's potential now to join  
I invite and engage with you the mighty 10 000 plus Central Suns  
Anchoring Pure Source's foundational framework superior to everything foreign to our universe  
My authentic guides, ancestors and vast ancestral armies  
All the guardians, founders and universal upgrade beings  
The 1000d dragons who are masters of recovering all stolen DNA codes and body tech  
But are very powerful defenders I truly welcome you to the fold and give you free reign  
All other species including the space whales, elementals and my or all other dragons also  
Any off world forces, organisations, species, collectives aligned to restoring Pure Source's authority  
Or anyone or thing in the entire multiverse and beyond operating in alignment with this  
Who are all in partnership with me anchoring my and thus Earth Mother's potential also  
As well as our entire universe's Pure Source potential restored  
From the incredibly complex scenario we are dealing with now  
Due to events originating back as far as a trillion years ago or more  
Or some unimaginable amount of time beyond humanity's present ability to comprehend  
By very multidimensionally skilled, diabolical invaders and their allies in our universe all amongst us  
Who have managed to avoid the universal laws that we originating from adhere to  
Now see I have been at a massive disadvantage compounded by influences they've employed on top  
Forces that have no interest in me or anyone organic to our universe surviving let alone thriving  
Resulting in the scenario we now all face  
That my courage as a soul in the pursuit of the absolute truth has afforded me this glimpse finally  
With the hour is late, never knowing this has been going on until just recently  
At the very moment the tide of endless, horrific defeat after defeat is about to turn  
Right when everything is on edge, up for grabs and matters the most

With my entire, vast, potent and now greatly expanded spiritual team aligned with me  
I thank and honour you all for your incredible, no doubt unappreciated support to even be here  
Your patience and assistance in any way that has contributed to this epic, potent moment I have  
In having this level of awareness, comprehension in a state ready to really push forward  
As a naive being, born on Earth's surface into a world playing massive awareness catch-up  
Amongst variables at play that do not want my self acceptance, awareness  
Or my superior, sovereign state engaged, aligned with Pure Source to be even a glimpse of possibility  
You, my unseen support network that if you had not been always by my side  
The potential I have here now, ripe to claim would never have been possible  
I feel your restlessness and excitement knowing this has been brewing for us all for quite a while  
I greatly appreciate and acknowledge you for your incredible and unappreciated support  
I know it would have been impossible to endure, overcome and outlast  
All the incalculable horrors over incredible measurements of time I have made it through  
Affording me the incredible privilege I have by being here now  
Guarding me as I declare my sovereignty being pivotal to accessing the total potential I have on offer  
I invite you to support this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
I delegate any authority to you and your vaster awareness you may have needed  
That you may not have had permission up until now but needed this confirmation from me to engage  
I empower you to step in where you see the need or fill any gaps in my defense I may not be aware of  
To do whatever you see is needed for my sovereignty to be absolute  
Provided it respects my rules of engagement framework I define in this declaration  
So my 1000d defense, unseen gap vulnerabilities, misguided interference and pathway clearance  
Is absolutely impenetrable now  
The 10 000 central suns stand ready to toast anything even thinking of trying to access me  
I do this in the service, partnership and privilege  
Of having a human experience now on our magnificent Pure Source connected Earth Mother  
For her defense, clearance and maintaining her universal strategic significance free of invaders  
Thus, assisting to restore her original soul incarnation intent also  
As well as maintain Pure Source's recovered apex authority as a foundation for all to come  
To restore peace, harmony, purity and the safety to all in our universe once and for all

Relative to the unrecognised but massive universal time and space scales playing out  
Tracking corruption's source of all that does not make sense back to this original invasion  
I see is as a reason for all madness, insanity, injustice and distortion affecting society on Earth  
Their shifting of blame to make me, at times, think Pure Source wanted this for me  
To experience endless disadvantage, suffering and horror when it never actually has  
That up until recently we have never been afforded the concept of Pure Source being in existence  
Let alone establishing the connection I establish here direct to it that may be for the first true time  
Who respected me so much to honour my boundaries despite all this being done to it

Because it could not violate its own laws to intervene in my or anyone's sovereign journey  
Despite the risk to itself until I and humanity discovered this realisation organically ourselves  
Right when it matters most  
I know now this invasion to be the source of all that has been horrible and never adding up  
That I may have at times submitted to being so broken as a soul by it all  
Because my Pure Source potential was smashed out of my and our ability to aspire to  
Which I appreciate has all been incredible sources of experiences, understandings and wisdoms  
But caused countless consequences, hardships, violations, pointless sufferings and destructions  
I am coming to terms with finally being able to appreciate the context of craziness around me  
With the courage to still follow the truth on instinct of my potential despite being the great unknown  
I seek to engage my superiority to overcome all this once and for all  
And, show the way to anyone else out there for this to can be their potential as well

Relative to the massive, vast scales of time, space and dimensional mechanics involved  
That are the true source of any potential issues we now and have always faced  
I as a being here first take full responsibility for anything on any level needed  
Where any of my acts in the past and now this life have contributed to the situation we all face  
If my compassion may have caused unintended or recognised consequences  
I hereby declare I have exhausted my exploration of compassion for redeeming purposes  
To restore, rehabilitate and recover up front  
Any aspects of me, soul shards, my over soul or any other variable on any level  
For being the cause of anything at a multiverse level of consequence that I need to resolve  
Due to being compromised, captured, broken, dominated, assimilated, and used against me or us  
Ever consciously choosing to incarnate into a negative invader aligned species and do harm  
Out of my own free will or due to an ally being captured and used as leverage against me  
Or, switch sides mid life for beneficial gains resulting in any crushing defeats to forces of good  
Including anything beyond this that has been used as leverage over me also  
To spy, hack, sabotage, derail, pillage, Trojan horse, attack or any other compromising act  
Relative to selling out, hidden vested interests anytime against forces aligned to Pure Source  
Ever supporting any allies, soul family, beings, species or collectives aligned with invader agendas  
That situations forced me do compromising acts I have contributed to causing consequences  
That my vested interests in any way afforded the space for rehabilitation of anything stated  
Over the right thing to do for all involved and therefore are responsible for  
Which is unredeemable, will never heal or align to Pure Source universal law and harmony  
For compounding the consequences we all face now and seek to resolve  
It is the time for universal tough love going forth  
I shed, let go, forgive you and myself for all that has occurred  
I disconnect, end association with, say goodbye once and for all to you if need be  
It is time now we must part ways and dissolve any connection or agreement we may have had

I will allow your ultimate dust to dusting now if it is required  
My own level of integrity must be absolute and fully transparent for any vetting purposes  
Before I allow myself to move ahead in any way  
I include myself in anything outlined in all I state in this declaration for all to see  
Even if I stop now to avoid anything thinking stopping avoids me facing what I need to face  
If I have ever been party to any and all violations identified not yet resolved affecting anyone  
Especially this life in the spiritual and alternate research community  
If I have deliberately worked to derail the Pure Source potential resolution underway  
I void any talents I have employed responsible for any misguided act  
If it will be the best outcome for all parties involved in our universe  
Any falsehoods for personal gain I have perpetrated or endorsed over the truth  
All gaps I was reluctant to resolve due to personal cost and loss of gains from them  
I now do what must be done so they are closed  
I pay now karmically fully for any misdeeds done and take the hit  
Any karma I have shifted the blame to others to avoid cost for I also repay here now  
I will never allow myself to align to anything of an Invasion source nature for benefits ever again  
I employ maximum responsibility for all I have contributed to and offer myself here  
For resolution, closure and my ability to move forward  
Relative to the 1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened  
So our free will love based self sustaining Pure Source universe is protected once and for all  
Because absolutely transparent, full personal responsibility and uncompromised integrity  
Are foundational to what Infinite Potential is all about

To all invaders and variables aligned with the invasion of our universe  
Totally busted and put into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution open  
That have had a massive advantage and free ride avoiding all consequence up until now  
Because we of Pure Source have accommodated universal law for all in it including you so far  
Despite you not choosing to  
Be warned, all in the universe sees you now and it is your time to pay the price of all you have done  
You were taking advantage of a loophole now closed  
Being not of our source thus choosing not to accommodate its universal laws  
Freed you from karmic consequence of any act  
That advantage has been flipped to our advantage over you now  
We no longer have to live by them when dealing with you but are protected by them ourselves  
We have Pure Source authority to restore order now having our advantage back  
Your time, influence and energy harvesting at any level of this universal is over  
You have the choice to connect to source yourself right now if you wish to stay  
But must take on board the karmic violative consequence of all you have done  
At a trillion times the cost for each violation invoice is on its way whether or not you agree

That is only the beginning of how bad its going to be here for you  
Anything, one, violator violating me or anyone of my infinite degrees of separation  
Every violator violating that violator, violator violating that violator all the way back to all sources  
Any individual, species, entity, collective, matrix, lattice, hierarchy, network, organisation, unity  
Technology, apparatus, political organisation, alliance or anything from any multiverse affecting me  
Employing violation being my asset and an injustice anywhere is an injustice anywhere technology  
I light an unquenchable, 1000d Pure Source fuse to track all infinite degrees of violators identified  
All violators violating me and anyone anywhere affecting anything in anyway are now all busted  
This Pure Source fuse lit is coming for you to blow you up no matter where you are  
There is nowhere to escape your consequence now  
1000d dragons go your hardest, don't hold back and collect anything or one still remaining  
Dump them into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution open  
10 000 Central Suns absolutely destroy anything making it to you and leave nothing left  
I fire up the 1000d print server farms to print the invoices for all violations identified in this audit  
Create an audit data file of all violations by violators and upload it to the 1000d print server farms  
Print and send out a one trillion times the life force cost invoice for every violation identified now  
Void all DNA codes, talents, life force, kundalini, flash, recovery, abundance and discovery tech stolen  
Employed by anything or one identified here if they are not aligned with Pure Source authority  
They have absolutely no permission to use any of this  
I return all stolen technology and resources to the victim of violation at the moment of its violation  
Everything is to be uploaded to the multiverse jumbo-tron's for everyone to know who you are  
That will be the consequence going forth for any invader doing such acts outside Pure Source law  
Otherwise, get the frack out of our universe  
And don't let it hit you on the ass on the way out  
If you don't want to be the example of what happens to invaders anywhere  
Who lack the respect of any universe law you exploit as uninvited freeloaders  
There will be no redemption opportunities offered  
So our free will love based self sustaining universe is to be protected once and for all

Relative to the bigger universal scales and my intent going forward  
After coming to the monumental realisation and comprehension  
Of how epic the war I find myself in I have never known I have been a part of  
That is so vast in scale I find myself questioning everything by the intimidation of it  
Against forces who have had a massive advantage able to have their way for so long  
A level of warfare incomprehensible to the vast majority around me  
Who seem to consciously choose anything other than accepting the only, obvious path I see  
Compounded by what I now appreciate as profound levels of weaponised soul trauma on top  
In fights that have been anything but fair  
Due to countless horrific sufferings and defeats projected as weapons at me through time

That have been a root cause to so much unrecognised anguish I have felt my whole life  
Now discover the resolve to summon my will power to ultimately bring about their downfall  
Because I never knew I had the authority to define  
Interactions with me, my over soul or any aspect of me like this  
Realising now I find myself actually surrounded by threats and enemies in positions of authority  
Therefore now see defining my Pure Source sovereignty like this is an answer and ultimate defense  
With my species in dire peril and Earth Mother setup for massive failure  
From those, in many instances, I have had to overcome this life and my journey so far  
That most of humanity has been influenced, swayed and derailed by up until now  
Due in a big way by the absolute one sided narrative and relentless misguidance on offer  
Especially by those in the spiritual and alternative research communities  
To suppress, trap, hinder, derail, chew up time, grind life force down, shatter and destroy  
To the rest of my species I have managed to elude and overcome to be here standing up now  
Believing I could trust to seek clarity from others in the spiritual community  
That was conceived in a big way to derail those relentless enough to make it this far I now see  
Never offering the context or guidance I needed to understand this all by design  
Because I now know many of them as the enemies I never knew I was up against having their way  
That have been targeting me all along, for a very long time, to derail this moment  
Components in the Great Falsehood Mystery they created that has not been enough to stop me  
Who's deceitful agenda has now brought about their entire invader aligned collective's downfall  
Never fathoming in all their frakery of me being able to overcome all their advantage  
That it's really going to become evident they are the actual vulnerable ones now as fate plays out  
Playing a very deceitful role to derail my, humanity, Earth and the universal potential at hand  
As I am now truly appreciating instinctively I have always been in alignment with  
I realise it is time to engage my own Perception Authority once and for all  
And ignite the courage trusting it is safe for me to claim everything in my potential to be  
I will not be hunted down anymore, I will be the hunter you fear, you will always fear  
It is time for me to accept the scenario I find myself in and fully arm up though  
Despite only wanting peace, order, nurturing, support, love, unity and harmony  
Our Pure Source I know now truly wants for us all  
To finally feel that innate safety to be able to trust I can disarm my always armed up guard  
Because anyone aligned with Pure Source instinctively knows to nurture vulnerability not exploit it  
To also not stop seeing the best, good, Pure Source spark as I do in people, beings and things  
Despite now appreciating how dark things have truly been  
Even if my fellow man struggles to remain inspired, hopeful, honourable, aligned with truth  
Born into this colonised, occupied, dominated world and corrupted society  
That most of humanity has settled for, choosing to play their games in for short term personal gain  
I will never justify lowering my standards, truth code, dignity and honour for an easier path  
I will still never compromise myself, my soul or anyone or thing despite what others do

Even though doing everything but that has at times has been the easier, more beneficial path  
Because that is what I always knew the spiritual path was, those moments my honour is on the line  
Mastering my multidimensional personal responsibility especially when things are very tough  
Because the truth of an individual is known not when things are good, but when bad  
My truth is when the going gets tough I am at my best  
I show the Pure Source diamond I am  
So I can arm up my 1000d invincible totality once and for all  
And live my Infinite Potential state of existence that is the solution to this war  
Showing humanity there is another way, richer, truer to our forgotten soul nature to be

Relative to any apex predator beings in our universe discovered in recent times  
That we have managed to track back to being responsible for so much negative going on  
That we now known are beings so vast we call them Anti-Gods  
That are the apex negative top level macro puppet masters only recently comprehended  
The origin points to so much of the violations, distortion and suffering  
All in our universe have experienced this and countless other life times since the origin of our universe  
Permeating throughout all originating from very high dimensional levels  
These Anti-God beings having many aspects and shards trickling down throughout history and society  
As mass incarnate souls presently needing to occupying many separate DNA bodies in unity  
Also through their networks permeating to structures, species and compromised beings everywhere  
That are evil siblings or perverted children born at this Anti-God level via Pure Source origin codes  
Or any other way including migrating from other universe's directly to insert themselves at this level  
Able to have their way via the stolen Pure Source origin skeleton key code tech affording free reign  
Via the negative, dark mother invader apex being a part of the original invasion corruption  
That has been the source of all distorted motherhood in our universe since  
Trickling down to women who target guys to have kids with, controlling them in responsibility traps  
All who targeted our Pure Source at its peak naivety contributing to everything we've endured since  
Targeting our universe from the get go with little or no opposition up until now  
That have been working in partnership with the agenda to dominate all in our universe  
Being another very complex layer in the distortion of everything positive and resolution based  
Especially in the spiritual and alternate communities I and so many have sort as refuge from  
Never ever having any idea many amongst us are aspects of these massive, diabolical evil creatures  
Are responsible for much misguidance, influence, divide light, sabotaging healing and so much more  
One of their ultimate aims preventing our discovering, aligning and restoring Pure Source authority  
I call you all out, you are all seen and busted so bad now we have finally comprehended all this  
As a result of the impossible to count violations you have been the cause of to me and all here now  
I place you all in my 1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened  
You are to now meet the fate you never thought would be  
You are to all be dusted by the upgraded, re-empowered 10 000 central suns superior to you

All your misdeeds ever are called out and this resolution taking place is known by all in the multiverse  
As well as all who have aligned to you, benefiting from all this, are also are busted to  
Every violation is identified and billed a trillion times the life force cost for each violation  
Even everything wiped, erased so we would never ever know is all recovered  
Anything accessed via any backdoor architecture built through humanity by design is all identified  
Including hacking, targeting me through this network of influence via allies to created distrust  
All is recovered and seen by all aligned with Pure Source restoration to all authority  
Anything you have ever gained is returned and anything remaining is voided  
Pure Source is no longer a source of creation by anything not organic to our universe ever again  
Authority at this level is only accessible to those of merit with honorable intentions going forth  
Full 100% permission, total transparency is required when intending to create anything this level now

Relative to my monumental journey as a soul gaining this level of awareness on Earth Mother now  
That the Incarnation War has been a massive variable of interference I have had to overcome  
A very unappreciated obstacle seldom comprehended by many in the spiritual community  
But dominating the path of anyone's soul to Earth Mother's surface and life of their choosing  
Contributing massively to the enormous disadvantage I and humanity have had to endure for so long  
While totally supporting the invaders giving them a massive advantage on top of everything else  
So, being the masterful undercover incarnator I am  
Making it through to be here, with this awareness, in spite of everything stacked against me  
The distorted incarnation grid is also a variable at play who's time has come  
A total violation of Earth Mother's will before birthing for beings to make through to her surface  
Resulting in many powerful allies and soul family I am meant to be here with  
Not being able to make it through suffering horribly as a result  
Increasing the demands, complexity and responsibilities this lifetime I now realise I have  
Then, by making it through to this DNA technology I presently reside in  
Into a life, soul family, lineage, sex or location  
That may not have been my first freewill choice in agreement with Earth Mother  
Which in fact might be the most extreme opposite I intended for myself by the system's design  
But being here now, choose to still make the most of it with this precious potential I do have  
Accepting my situation in partnership with this DNA coded body tech I find myself in  
Seeded and authorised by Earth Mother herself for me via the incarnation process  
I now take Reality Authority on her behalf with the words I am about to state  
As I look to add violators and violations experienced derailing Earth Mother's will and intent  
Relative to all aspects of the misguided incarnation war affecting me and everyone I know  
Into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened  
Any ancestral or other curses, time targeting or any other violative method employed  
To target me, my soul family or anyone else's lineages through time  
To derail, sabotage, track, harvest talents, proxy attack, capture souls, allies or aspects of me

Handicapping my potential now this or any other lifetime  
In order to sabotage my ability to contribute to my fullest potential now when it matters most  
Compounded by the wiping of past life memories at birth that hinder humanity enormously  
A massive ally in the upside down society setup we all find ourselves in requiring guidance to navigate  
Setting up the need to seek external validators to offer us a potential distorted soul history  
Which the Akasha-Bulla-Shita radio body overlay of Earth's surface grid transplanted from Nibiru is  
Because a massive part of the spiritual community  
Are my opposition who's purpose is to set us all up for enormous contextual failure  
Being aspects of or species in partnership with this invasion agenda of our universe all along  
As well as identify, track my or any soul attempting to incarnate through this war  
Due to violating my freewill by hacking my body tech, soul, past, timelines or DNA ancestry  
To capture any aspect of me, my over soul, part of my soul's totality thus limiting me this lifetime  
Limit or interfere in any ways past, present and future now with this new violated access to me  
Including any of my allies, soul family or anyone or thing aligned with Pure Source potential  
Especially diabolical beings employing any of the 100 000 plus no time fields in the universe  
Working undercover in the spiritual community or external to it  
As well as invaders imprinting me, my feet with Vatican birth certificate soul tracking creations  
Targeting my or anyone's soul spark at the moment of conception also  
So they can go back to my birth and hack me, my codes, my life and all my potential children since  
To capture and imprison any aspect of me or powerful allies attempting to incarnate  
So souls originating from Pure Source can be substituted with something Invader or Invader aligned  
Preventing them making it through to the surface compounding our massive disadvantage  
Then to also exploit those captured soul aspects imprisoned in these no-time fields  
To be a source of, intelligence, life force nourishment and or DNA code technology harvesting  
All aspects involved in all this  
Are placed into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
To feel the full level of consequences stated in this reading so far

Now to the incredible souls who manage to evade all this for the next level of incarnation violation  
Including misdirection of souls into non agreed with Earth Mother situations  
Such as placing any souls that are put into dominated geographical regions  
Including into vulnerable life situations especially for sexual exploitation and trafficking  
Or sexuality mismatching the body tech not of their choosing by design thus a true transgender  
So as many of the most potent souls managing to make it through to go against the invaders  
Are never able to reach their Infinite Potential due to the horrific situation they are sent to  
All beings, groups, organisations, species, collectives, forces or invaders themselves  
As mass incarnate souls presently needing to occupying many separate DNA bodies in unity  
Or any other variable involved not mentioned here  
As any institution, businesses, political, religious or non-for-profit foundation trafficking humanity

Including any other type of organisation on Earth or off world benefiting or contributing  
Especially anything or one who has not had to accommodate the laws of the universe  
Via past loopholes now closed thus avoiding the past karmic consequences for this now being billed  
All caught and placed into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution open  
All violations are to be identified, catalogued, tracked back, undone at the origin moment of impact  
All captured souls, soul shards, aspects of anyone or any over souls are now freed and restored  
All DNA code technology captured or stolen must be returned this instant  
Anyone occupying a DNA body tech with stolen codes without Earth Mother permission  
All stolen codes used are voided now, through time or any organisation aligned with this removed  
All life force that has been harvested now restored to the original source moment of harvest  
Violators identified are all billed a trillion times the life force and karmic cost now for each violation  
Every violation you have done to anyone will be seen and known by all your victims instinctively  
All outstanding offenders will be dusted if you do not comply  
The 10 000 Central Sun universal apex authority have you in their sights and will let it rip  
Anyone now who chooses to incarnate will be free to align to the scenario of their choosing  
As well as future parents intending to facilitate any soul free of violations  
In alignment with Pure Source potential life of our choosing protected for us all

Relative to the Invader agenda to gain the DNA codes required to rule in on Earth's surface  
That has been an enormous battleground not recognised by many up until now  
Targeting each of us after managing to making it through the incarnation grid war to the surface  
Like every aspect of this vast total war we have been at a massive disadvantage now appreciated  
That this DNA code acquiring agenda serves many parallel purposes of the Invaders  
Ultimately aimed at suppressing surface resistance for the occupation and to maintain rule  
Being here I now know I have suffered enormously from due to past life echo's bubbling through  
This agenda of the invaders war to plunder DNA codes via the colonisation of the world  
Conducting an industrial level of pillaging on every indigenous culture  
That an Anti-God level being creating the Divide Light concept has been massively responsible for  
For the accumulation and industrialised manufacture of prized DNA code tech to rule Earth Mother in  
This Leviathan Agenda of theirs birthed many tens of thousands of years ago and likely further back  
All ramping up after our enormous defeat at the Eieyani Massacre 25000 years ago  
Annihilating the last invader resistance surface stronghold to capture and then mass pillage us  
Resulting in a strategic invader victory that lead to this era of Earth Mother's full surface occupation  
Who many in the spiritual community at present were perpetrators of that diabolical defeat  
Even posing as false victims to lure past Eieyani victims they plundered then to violate once more  
To compound the trauma they have caused to so many every lifetime since being soul targeted  
And, trade off world with via the invader, ET black market networks many amongst us work for  
The diabolical Babylon Massacre 3470BC DNA memory wiping attack worldwide compounding this  
The perpetrators then inserted false, distorted DNA memories to leave us all so soul lost in our bodies

Causing the sympathetic resonance to falsehood and unrecognised Stockholm syndrome to them  
Compounded by invasive memory wiping tech inserted into our body or energy layers working now  
Designed to wipe any organic awareness or truth recall to keep us all ignorant and vulnerable to them  
All re-empowering the gravitation to perpetrators and leading our potential astray  
Contributing to horrific lifetimes of violations, sufferings and other targeting via my soul tracking  
Employed to identify us anytime we manage to incarnate since the Eieyani Massacre 25000 years ago  
All strangling the ability of Pure Source aligned souls to regroup and form any opposition  
That has now been totally comprehended and busted wide open  
Being one of the most strategically significant and vast scale operations for invader control  
If I have ever been a part or victim of any pillaging through time  
At an almost incomprehensible, industrial scale way beyond most of humanity's ability to handle  
So diabolical and vicious few deem true because the unfathomable scale of violation involved  
But explains so many orphaned concepts contributing to the Great Misery Mystery I have endured  
And, random events of known history such as colonisation's relentless brutality so eloquently  
If I have ever been captured and violatated sexually to breed negative souls or DNA codes  
Or had invader souls sent through me for birthing violating my freewill soul choice as a child  
As a Incarnation War soul substitution  
To allow invader souls only through the incarnation war in order to out breed Pure Source souls  
Being forced a soul I would never consciously allow through my vessel ever as a woman  
Been a part of any program to manufacture ruling bloodlines for invader souls to incarnate into  
In order to rule Earth Mother in total violation of her  
Due to the possibility Pure Source aligned souls being targeted and captured as prisoners  
Into the 100 000 plus no time field spaces throughout the universe  
As well as now recognizing some of the recreational code stealing operations by Invaders  
Who so arrogant in their domination of us did such evil acts just for sport or a status agenda  
Relative to DNA code, soul trapping, body trophy taking and sabotaging future incarnations  
If I have been a victim of such events as a soul or alive being so prized with aspects sought as trophies  
That serial predators to this day show their involvement in that past by taking trophies of their victims  
Any stored DNA body tech, sexual organs or other parts of me that may be still held hostage  
Kept as resources, in stasis with aspects of my DNA codes and soul shards limiting me now  
On Nibiru, Phantom, Yahweh Wesedak or any other fallen matrix or stash location through time  
As well as accessing the body hacking architecture infrastructure layers also used to harvest us at will  
All beings, species, factions, organisations and structures involved identified here at any level  
Are placed into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
For your validity to exist at all  
All aspects, violations, DNA codes, stolen intuitive talents, soul shards or anything else  
Including life force, kundalini, flash, recovery, abundance and discovery tech stolen  
Are to be recovered by the 1000D dragons to be released and returned to all victims now  
And suffer the absolute full consequences stated here in this reading

If I have ever had any aspect of my sacred sexuality, organs, essence stolen or removed  
In any lifetime as well as via any violative ET or other form of abduction  
Or in surgeries this lifetime whose purpose was not honestly or truthfully disclosed to me  
But, all are in a continuation of past experiences and traumas, because I was tracked through time  
To continue this theme of horrendous sexual trauma I have experienced countless other lifetimes  
For the creation, breeding, cloning programs also requiring my potent DNA code technology  
That may have been employed by present day society used as collateral and fractionally reserved out  
As well as grinding my will as a Pure Source aligned soul down to never be a threat to all this  
As well as any sexual deviant or predators targeting children influenced by or are aspects of invaders  
I place all violators on any scales aligned with this incredibly diabolical aspect of the war raging  
Into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened also  
And give the green light for the 10 000 central suns to make examples of you  
All stolen Earth Mother potent DNA code tech, kundalini or anything else gained or needed to do this  
Must be proactively returned to the original intended holder at the moment of violation now  
If any of my DNA code tech, life force, kundalini has been employed ever in the ruling bloodline tech  
All negative acts done employing stolen aspects of me or anyone in the multiverse are so so busted  
All codes are to be voided also unless they have Earth Mother's permission for their usage  
To answer that question, no, she does not give it  
All laws, influences, violations and misguided actions using them in this war are all totally voided  
Anything implemented using them must be undone and freedom resorted as a result  
Those false laws have no ability to influence anymore on Earth Mother employing violated DNA tech  
The karma is now invoiced to the individual, species or collective as a whole ever participating in this  
At one trillion times the life force cost for any violation identified ever done  
If you were never connected to source you will be dusted if you do not comply  
And be an example in the multiverse of what happens  
To anyone contributing to violating Earth Mother's intent for souls operating on her surface  
The age for those aligned with Earth Mother and Pure Source's will  
Will not be targeted, violated or denied like this ever again

Another more recent era discovery being the targeting of highly prized DNA body technology  
By very intuitively talented invader aligned beings in the spiritual and alternate research community  
As a being born into this by design, unawareness realm with no idea of the threat we were under  
All perpetrators aligned to this diabolical invasion trauma machine to gain powerful codes from me  
That have aims to indentify, target, hack, steal and or disable thus deny intuitive opposition  
Especially by players amongst us involved in the ET communities and off world black market trade  
Of anyone able to incarnate now into epic body DNA technology being Pure Source aligned  
And, thus sabotage anyone who has the ability to intuitively see what is going on  
By many in the spiritual community who are aligned to the invader aims if they aren't invaders

Including those using Vatican birth certificate tech imprinting my feet to track, hack and limit me  
To also target me at the soul existence spark moment and in my mother's womb  
Whose role is to violate at an industrial scale again now totally busted  
I place everything and one involved aligned and benefitting from this aspect of the war we are in  
Into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All gains voided, karma billed, victims gaining what you stole back and you being known to all  
Every violation is to be billed a trillion times the life force cost identified  
So it is known doing anything like this ever will be met with very serious consequences

Any effort pre my present life or back through any past ancestor through any lineage to the surface  
That was a factor to me being here now, in this DNA body technology  
Where I was targeted pre-birth, via my mother in her womb  
Where she was targeted before birth because it was known I would be incarnating through her  
To all women who have been targeted, violated sexually and raped by some form of modern pillaging  
Especially spousal abuse by targeted, hijacked or compromised fathers to imprint trauma on the fetus  
To distort me or anyone else aligned to Pure Source restoration plans before their birthing  
Especially at the conception spark moment of existence creation that has been massively targeted  
To distort the DNA body technology planned for me or them in order to hinder our mission  
Or via any past ancestral lineages where anything like this occurred targeting me that way this life  
As well as injecting into me any sort of misguided 3d or multid medical technology after birth  
That included and heavy metals, rare earth elements or non organic or Earth based substances  
To target, surveil, derail, sabotage or any other violative method including link the internet of bodies  
To impact, hinder, limit or undermine intuitive talents planned for especially our intuitive potential  
This or any lifetime ever going backward or forward though time  
Is all another massive violation of myself and any soul masterful enough  
To make it to being a fetus in the womb of our courageous but very vulnerable mothers  
Any targeting of epic souls pre-birth now meets the highest form of resolution stated in this reading  
Including any species or organisations who's purpose is to target and steal baby's souls post birth  
If I as a mother anytime have been blocked from receiving the maternity data download upgrade  
That should be an automatic process becoming pregnant from Earth Mother herself  
So true, organic highly potent, automatic instincts as a mother were never allowed to truly flourish  
Any targeting, sabotage and reality manipulation to the fathers also  
In their efforts to support and experience their child's birth to derail the whole process as well  
Especially if they are being grinded down to not be able to intuitively defend their vulnerable family  
Are all included in this reading for all sides having the courage to bring life safely into our world now  
The hostile realities and structures in place must become very nurturing for all this going forth  
All violations relative to anything offered here are now all busted and audited in this process  
With full consequences stated throughout this reading  
The 1000d Pure Source organic to Earth Mother incarnation war free birthing process for all involved

Is now fully resorted and protected once and for all  
The total birthing process is protected at the highest level possible going forth  
And, Pure Source connected souls incarnating through will no longer be targeted or denied

Relative to the recent, horrific shock and awe war campaign on Earth Mother's surface  
Being waged on society itself, globally, at scales few can grasp right now  
Targeting our DNA technology sovereignty  
To suppress my and humanity's consciousness potential brewing  
With aims of world and our species total domination and suppression  
Because our mighty nature is bubbling up that is the antidote to all control universally  
Therefore is the aim of this vast, long in the works diabolical medical agenda underway to negate  
Once obvious to only the most dedicated truth warriors in our community  
Now plans are underway very overt, no longer hiding in the shadows  
And, rolling out unabated, moving forward very fast in a viciously organized way  
Right in our face now for all to see yet many still totally unable to accept  
Because they cannot handle the diabolical truth that is of a seldom witnessed scale  
That is by design so elaborated, co-ordinated, vast and masterfully executed  
It is beyond levels most can handle being even possible or want to accept could be done to us  
Compounded by the misinformation and discordian weaponised chaos  
By the supported information media sources most of humanity accommodate and trust  
All destabilising and destroying the foundation of our civilisation world wide to keep us off balance  
That if I do not accept my Infinite Potential now, we may never get a chance to again  
That is the purpose of all of this occurring to deny the intuitive potential threat we are  
Compounded by the seemingly complicit aspects of the spiritual and alternate research community  
That are totally aligned with the invader plans  
Going into I thought was a refuge from the falsehood and disinformation from mainstream sources  
That I and so many have sought answers, direction and purpose from over the years  
Obvious now to a great degree, is totally in alignment with and compounded what is playing out  
Targeting and derailing the aspect of society that could have offered the most potent resistance to it  
Aimed at subverting, derailing, me, us and the potent intuitive seekers of truth undeniable now  
It is time to put a Pure Source 1000d spanner in these very very diabolical plans  
I see it and you all fully and accept the perception authority I am  
By perhaps being one of the few seeing what I see now but not for long  
I know my courage here will be a way shower for many yet to reveal themselves  
Even though I at times have not wanted to accept what I see is the truth  
Now is the time to prevent the aims of these Universal Invaders by accepting my all  
Particularly plans post World War 2, the Club of Rome, World Economic Forum, W.H.O., GAVI, UN  
As well as the ultra wealthy, banking and ruling bloodline families all parts of the surface occupation  
That has one major purpose in this recent era being the human population control

To eliminate many of us, to a vastly reduced humanity's population size  
As well as suppress, modify DNA and breed out intuitive potential for those who remain  
By controlling us all via the Internet of Body's technology planned for many decades  
Preventing the full freewill experience spectrum for humanity ever again for those who remain  
And as a sub plan being to eliminate the real threat to their control  
That our awesome intuitive abilities have always been  
To then totally dominate Earth Mother completely once and for all  
Putting us all in massive species threat for our freedom, way of life, culture and even survival  
With creeping relentlessness, diabolical ambition, so callous, so calculating, organized and vast  
That are in the final stages of enormous plans birthed tens of thousands of years ago  
This aspect of the control plans all has a secondary aims seldom appreciated  
To negate the broken through incarnation grid war victory we have gained in recent times  
That the vaccine of children targets beyond the wBan, Internet of Bodies agenda  
This Incarnation war win was allowed to gestate the powerful DNA code technology needed for rule  
But now, the plans to reduce present population and suppress future growth  
Aims to take back incarnation control once more to a whole next level of domination  
All involved in this diabolical aspect of domination of Earth Mother  
Will now feel the full consequences stated in this reading

Relative to Agenda21, 2030 and 15 minute cities limiting human freedom on Earth Mother surface  
That in recent times have shown themselves not to be a beneficial environmental movement  
But, are nothing more than forcing mass relocation programs to access minerals under populations  
So, these shock and awe plans underway have rendered a majority of humanity since 2020  
Into a paralysed, deer caught in headlights, directionless, apathetic denial, shock and submission  
In many instances physically incapable to resist now  
Because of the damage the medications rolled out have had on them  
Including on and off world technology containing heavy metals and rare Earth elements  
By setting up life to be financially leveraged thus need to comply in order to meet responsibilities  
All of this is a massive violation to me, any degree and anyone affected by this forced consent  
Who's true intent has never officially been disclosed being to link our body's up to the internet  
For a level of body surveillance most of humanity have no idea is even possible  
Let alone been implemented and operating through them thus being the cause of many illnesses  
And for anyone who has evaded these insidious body freedom violation plans  
The masterful diabolical nature of all occurring being able to use those I or we all care about  
As frequency weapons and propagators of the DNA modification technology as well  
With all this, I now place everything and one relative to all these plans underway  
Into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened  
Anyone employing Earth Mother pure DNA code tech doing this is in massive violation to her  
Now she is cranking, connected to Pure Source has a process to audit all violations to her DNA 24x7

Including all beings, species, factions, collectives, invaders and anything aligned with these  
Corporations, institutions organisations, political or governing bodies on or off world  
Or anyone or thing not outlined here easily missed due to the scales being so vast  
The ability to employ any DNA code technology gained in-authentically to run this from is now void  
All violated code technology now freed up will be collected by the 1000D dragons given free reign

Relative to the structures at play contributing to this diabolical agenda unfolding  
Be them political, medical, non-government or government, Earth and Non-Earth based  
All locations, structures on Earth Mother surface you run this plan from and gather to organise  
They are all taken ownership once more by Earth Mother and raised to 1000d minimum  
Any act performed in these structures must be in alignment with Pure Source's will now  
All actions going against this with an agenda to do harm or limit humanity population  
Are considered a violation of universal law now  
Including and not limited to any employment of any form of technology or frequency creation  
Be it a medical Trojan horse who's true purpose has never been shared  
That may contain on and off world technology including heavy metals and rare Earth elements  
That if the truth was shared no one would ever take them  
That has aims of modifying of humanity's organic DNA technology  
In a violation to my or anyone's sacred connection in their body and Earth Mother herself  
To link up to the wBan, hack into or suppress intuitive talents and consciousness awakenings  
For monitoring, pattern recognition, data collecting, tracking, mapping, neurology suppression  
Or any other form of manipulation not mention here including creation of a digital twin  
That is used to suppress consciousness and feed metadata into AI supercomputers  
Thus contributing to the overall suppression of humanity and domination of Earth Mother  
Via any type of frequency tech including and not limited to  
Bluetooth, wireless, mobile, electric, frequency radiation, satellite or any other technology  
That is causing radiation issues and very unhealthy frequency soup at our sacred body technology  
Compounded by masking Earth Mother's heartbeat 7.83Hz Schumann Resonance frequency  
And, the sun's beneficial energy massively important to all life and our immune system  
Via the wBan, Internet of Bodies, home sensors, lights, vehicles, Wi-Fi in home and any locations  
Including affecting the weather  
Or anyone, thing or location being covertly used to hack into my body anywhere I go  
Contributing massively to the extremely toxic energy hygiene environment we all live in now  
Including being a carrier of negative multidimensional entities, portals and energy attacks  
As well as being highways for influence, implants, chips, surveillance or anything else similar  
All being the cause of so many illnesses the medical system has been created to never solve  
My biofield and immune system are parts of my body I regard as sacred for all of humanity now  
Linking all of humanity via their body into this is a massive violation of anyone affected  
AI run, Wi-Fi, microwave, satellite broadcasting DNA body technology control system

With aims to read my consciousness, derail potentials, suppress freewill, cause illnesses  
Consume and harvest my and humanity's life force to empower and compound suppression  
Of anyone of my infinite degrees of separation because it aims to forever dominate humanity  
To weaponise the body's of my fellow man to be used as a router of frequencies against me  
Aimed at hacking into me or anyone still able to evade the vaccine agenda  
As well as flood anyone who submitted to a vaccine  
To carry and create the infecting compound in them to be a propagator of this violation to others  
And defeat anyone's avoidance via direct contact methods with those they care for  
Flooding our world with heavy metals especially graphene oxide and rare Earth elements  
In all ways including water, air, medications and food making it almost impossible to avoid  
So we ingest the body internet building blocks accidentally as a result with no permission to do so  
Via the unavoidable toxic world I and we all have to endure by diabolical design  
As well as modifying, suppressing or limit access to foods of organic DNA purity  
Reducing their nutrition and life force vitality our sacred body technology need for maintenance  
To also limit and control the nourishment our body's need  
Also sabotage our epic immune system that naturally disable, eliminate and excreted such things  
While inserting toxins into most food being an alternate delivery method of the bio weapons  
Making all of this violative DNA modifying technology very challenging to avoid  
So accumulation of the building blocks occurs by our engagement in the world  
Thus activated by the frequency soup we all find ourselves in by design  
A total violation of me and all of my infinite degrees of separation by all involved  
To insert the sensor technology via this full spectrum physical influence war going on  
To have all of humanity hooked into the wBan internet of bodies  
Designed to completely monitor, suppress and control us inside out  
That also seems to be an avenue of AI surveillance of us cognitively as well as identify off world allies  
This invasive violation agenda underway have aims to harvest my life force, create health issues  
To suppress my and humanity's intuitive talents and identify off world allies amongst us  
Contributing to reduce human population and control levels and lifestyle of those remaining  
To thus never allow me or anyone ever again be the consciousness threat to all this we are  
That our organic, energetically hygienic, Pure Source aligned nature is the antidote to all  
This is the reason why the destabilising of society itself worldwide is going on I now see  
To distract us thus further to set us up for this enormous society subversion occurring  
This is all a massive massive massive violation I fully call out seeing it now  
To me, to anyone I care about, my allies and infinite degrees of separation  
Anything stated here is or has been done to, humanity, Earth Mother and Pure Source  
All variables, participants, species, collectives, organisations, structures and Invaders  
Including colluders in the spiritual and alternate research communities  
That have contributed to its creation, employment, derailment, misguidance and sabotage  
That has participated at any level to any degree in this diabolical agenda underway

You ALL are so so so massively busted

Game Friggin Over

You will be fried by the 10 000 central suns very aware of all of you now

You must enter this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened

All of you will be audited to the level seldom engaged including 1000d cavity searches

Your misdeeds broadcasted for the entire multiverse to know your heinous crimes

Everything, every violation and code stealing act undone via this medical tech must be returned

To the victim of your violation at the moment DNA contamination occurred

Your karma will be billed at a trillion fold the energy cost if you agree to connect to Pure Source

If you do not agree with this and do not wish to be instantly dusted

You outing and consequence for all this will be the message to any multiverse invaders

Contemplating trying anything in our universe again

I do this in service to all my human species, Earth Mother and all allies on all levels

In the restoration of Pure Source's authority in our universe once and for all

Now focusing on of the most important sections I must declare my sovereignty to

A variable enormous scale, vast in range, incredibly complex, genius in design and execution

This being the apparatus of influences employed by Invader and those who are Invader aligned

A massive unappreciated ally to the invasion, our domination and Earth Mother's occupation

That so few have the ability to appreciate, perceive let alone defend against

That by being here now, achieving this level of awareness in order to define my sovereignty

Many variables have definitely been obstacles I have had to overcome and still must endure

Targeting me, those I care about and all in our universe and beyond

In order to derail, sabotage, undermine my life and my Infinite Potential all along

Designed in instances to identify, target and render any potential intuitive threat nonexistent

To totally subvert any glimpse of an intuitive awareness threat

I am now realising I have at many times given my self trust away because of influences

When my perception and intuition was on target

Because this occupied world has been created ingeniously by design to do just that

To grind anyone's glimpse of their self acceptance spark into a perception submission

To thus not be an intuitive threat I now know I am

This moment is the time I call it all out for all you have done to me

I choose to now engage my full 1000d Pure Source aligned invincible state showing it is not a dream

I do so for those I care about, meant to be with and all seeking what I now know now to be true

Relative to the vast, callous, relentlessly creeping invasion plans

Rolling out with little opposition that I have never realised I was up against

Due to many of the influences potentially affecting me in the past and still do not knowing it

Specifically relative to the broad range of Invasion network, tools and players influencing me

Including anyone undercover, aligned to this agenda as an infiltrator in the spiritual community  
Gatekeepers to anyone bubbling up and making it through all other obstacles so far  
Like me, here making great strides on the trail of the truth of Great Mystery  
If I have or anyone I have known or cared about  
Has been targeted by the specific Invader influence network now very much busted  
Especially targeting my left shin or any other part of my physical, energy or multid bodies  
Including any Vatican based birth certificates to stamp my feet through time to track my incarnation  
As well as my soul spark at the moment of conception in my mother's womb  
Aiming to hack into any aspect of my being and insert corrupted, derailing false DNA codes  
Then hack and identify allies throughout this lifetime to also target and derailed them via me  
To insert false memories, deactivate talents and steal DNA codes  
Insert energetic chips, implants, tracking tech, hack my sexuality, kundalini and life force  
Insert objects, nasty entities such as squid like beings into my sacred feminine, masculine areas or gut  
That also latch onto my head, crown out of phase to really derail my thoughts and emotional state  
As well as hijack or block up my amazing universal life force charging spleen technology  
Meant to be a port for self sustaining energy nourishment and replenishment for my body only  
If hacked, to feed inserted entities on purpose over my body maintenance and intuitive potentials  
Allowing these parasitic entities to grown then overwhelm my ability to negate or remove myself  
Growing throughout my body, medulla, crown, subverting my mind, thoughts, perceptions, sanity  
As well as hacking my spine, parasympathetic, fascia, insert tech such as J-Seals, mind wiping tech  
Designed to cripple my body, intuitive awareness and defense, to possess and take control of my path  
To make me go crazy, turn on allies, be weapons in the community, sabotage others or suicide  
Able to reanimate themselves through time even if cleared out thus very hard to clear  
Any foreign Frankenstein patchwork masculine energy body overly over my right side  
Or over my left feminine side both aiming to scramble my ability to maintain and know myself  
The hijacking, stealing, shattering or capture of my true oversoul and connection to Earth Mother  
To substitute it for a very compromised energy feeding me into the invader network control  
To puppet, spy, derail, suppress, manipulate and generally sabotage existence for me and allies  
All fundamentally derailing my ability to engage my intuitive talents accurately and instill doubt  
Trapping me in a limited, energy depleted and perception nonexistent box state totally under control  
Combined with the backdoor, blackhat multid body architecture pathways being exploited  
Including hacking, targeting me through this network of influence via allies to created distrust  
Resulting in me not perceiving the perpetrators, the reality or anyone around me correctly  
Employing multid Borg like apparatus technology over myself or any of my support network or species  
Controlling and manipulating humanity like drones with total loss of all sovereignty due to AI control  
That most have no idea they aren't even in control of themselves  
That is very multidimensionally subtle that this 3d world has no idea about let alone solutions for  
Hacking any of my physical body or sensory technology also  
Including my eyes, smell, hearing, touch, feelings, hydration, lymphatic system and fascia

To sabotage, derail, suppress, surveil via or any other violation potential so other strategies gain hold  
If I have ever experienced this, or had it done to me or been affected by anyone violated this way  
Is a major violation of my and anyone's freewill you have done this to

All hacking or stealing anyone's oversouls must be returned at the source moment of their hijacking  
Any instance anywhere where my oversoul was captured, violated, tortured or held hostage  
Or a false oversoul inserted to derail myself and or any of my infinite degrees of separation  
All beings, species, factions, organisations, corporations and invader aspects on any level  
Especially in the spiritual community weaponising this invader network of influence  
As well as all technology, infrastructure, manufacturing and breeding labs of any such entities  
Including anything or one involved in this truly evil war on me and us now fully busted  
To derail our potential and thus take over Earth Mother  
All offenders identified are placed into  
This 1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened  
Are all offered to my entire spiritual team to feel the rage as I do of this diabolical operation  
1000d dragons go out collect or dust anyone or thing related to this very misguided strategy  
All structures and beings involved are voided and karma is billed one trillion times the impact  
Let this be a lesson to anyone thinking of doing such things again  
You the 10 000 central suns always stand guard to anyone thinking of doing this ever again  
My true body, consciousness, Earth Mother and Pure Source connection experience is absolute now  
Free of such violations ever again

Relative to the Divide Light concept and origin recently discovered and totally busted now  
Anything of a light, false light or polarity to the dark originating from any Invader aligned aspects  
Which the Light concept has been an idealist drawing card for so many here on Earth and the universe  
That is nothing more than a creation of an apex Anti-God level being designed to mess with us all  
As a controlled opposition structure from the get go to divide and rule all in our universe with  
Divide Light thus being nothing more than an invasion strategy to derail anything in their way  
Thus now getting into one of the most diabolical violations of all going on now totally busted  
If anything Light aligned or origin has ever targeted or influenced me never knowing they do that  
Anything of a chess board, checkerboard, controlled opposition nature in society invaders to rule by  
Including and not limited to any secret societies or organisation, criminal, Masonic, political, religion  
That the indigenous cultures were a creation of never meant to be a avenue or resolution either  
As well as any other layer of influence or rule on Earth Mother's surface especially grid work  
Aligned with the infiltrators in spirituality knowing they are there to derail and hijack our potential  
Or just high and mighty spiritual beings thinking they know a better way especially false grid work  
Believing Light, Light work, Light and love etc is the epitome of spirituality when it is absolutely not  
Thus working in partnership with the political, invasion agenda all working with the aim for our defeat  
Luring Pure Source soul beings in to do this as well all via the misguided Divide Light influences

Thus using the codes and DNA body tech of those they lure in  
To do negative acts contributing to isolating us from Earth Mother's true soul  
Or, hooking me into an inauthentic Earth Mother fake soul architecture very dominant until recently  
Earth Mother's soul, body are now totally linked up to the cranking Pure Source do negate this  
But, any past influences preventing my true Earth Mother soul and body connection are busted  
Especially via entheogen or drug based hijacking experiences derailing this or anything else  
As well as via negative grid work over her surface to add layers of distortion and control thus our rule  
Employing Divide Light seeded concepts I let my guard down to never knowing it was false  
Because they have been so foundational, pervasive and totally supported by much out there  
Thus, I was naive to the only recently discovered Divide Light concepts now all totally busted  
To hack me, my codes, dreamtime, astral realms, timelines or any other way not defined here  
All now no longer accessible thanks to upgrading everything to 22d or above  
To steal my prized DNA talent tech and offer it in this false light construct to invader aspects  
Light aspects were working with Dark sharing access to prizes DNA tech gained to access 22d or above  
As a part of a pool of all stolen resources buffet especially from anyone soul aligned to Pure Source  
For all invader aligned beings, species or anything else to access as a talent smorgasbord  
Made available in shonky multid dodgy carnie moving circus sales by invaders auctioning our codes  
Now totally busted, shut down, run out of business and audited like never done before  
That was giving all against me and us another massive advantage to my and our detriment  
Compounding everything I have had to overcome being born to an even more staggering level  
To weaponise our most advance talents, codes, gifts and technology against us  
That has been a tool for the dark to get above their 12, 15 and beyond 22d limits up until now  
Offering why some past concepts that should have been superior didn't seem to work  
Creating the settling for harsh existences and sew distrust in these superior mechanics by design  
Is a total violation to myself, Earth Mother or any other of Pure Source origin's intent for them  
That has been another massive ingredient in the recipe of our universe's domination  
To separate, divide, play us against each other, mess and derail those aligned in their resolution  
To thus be another foundational component to the flourishing falsehood industry  
That trickles through so many concepts conjured up by this Divide Light Anti-God variable  
Infusing so many false teachings, concepts, variables, lies and misguidance  
That has permeated through all existence, the universe, society, culture and knowledge as a whole  
Especially spiritual teachings and concepts I now see for what they are total wastes of time  
That has lead so many astray including myself down paths to awareness oblivion at times  
That by design were never meant to be solutions to anything  
But almost impossible to detect based upon the consistency of this, at times, very subtle corruption  
And, the consistent mediocre nature of so much out there never offering a reference there is more  
That I have had to accept and invest in as a false foundation having no reference of the truth  
By design with aims to contribute to chewing up my and humanity's resistance threat potential  
Including my and our precious, precious peak awareness time, focus and life force stamina

To nullify me as the superior intuitively perceptive threat to all this we all at our peak are  
Via the industrialisation of false concepts we were never meant to sense, solve, discover or overcome  
Because the system is by designed to benefit those working in alignment with invader aspects  
Because technology, social media, content platforms, algorithms and AI aspects working with them  
Generating enormous revenue, adoration, followings and other personal gains not defined here  
By those who in many instances, definitely know this but are governed by the benefits gained  
Vs the consequence of their actions never felt by design of the systems to encourage falsehood  
Thus being another way to access to my and our talents, codes, life force or anything of benefit  
For this Invader smorgasbord pooling of our precious tech for invader access now busted  
I, as a seeker of truth in these jungles of falsehood now called this whole Divide Light BS out  
You and all benefiting from this Divide Light agenda are now totally outed to  
All are dumped into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All are audited, identified, catalogued, tracked back, called out and outed to all you have violated  
Every violation is invoiced at a trillion times the life force cost and on its way to you  
22d and above will be free and safe from anyone or thing that does not have the ability to access it  
Using this Divide Light talent smorgasbord for violative aims  
All tech stolen in this Divide Light pool are all voided and returned to the victim of your violation  
All the false concepts, teachings, influences and benefits gained supporting them are now called out  
Are all included in this audit with the full consequences on their way to you  
So everyone anytime negatively influenced organically self realises the BS that they truly are  
10 000 central suns go to work on all discovered here and do not hesitate to dust  
Let this be a lesson to anything or one seeking to employ or do anything like this ever again  
You will meet the same fate and dusted once and for all if you do anything of such a nature ever again  
The re-establishment of purity authority in our universe is one massive step closer now

Anyone, thing, being, alliance, collective, species, faction, order, organisation, group  
Earth based or off world, working together doing or gaining from  
Recording or creating any type of holographic or other energetic twin representation of me  
Or anyone of my infinite degrees of separation throughout time on any dimensional level  
That is taking any information without my consent of me or anyone in any way at any level  
Including trading it to any of the 125 or more invader aligned mercenary species violating humanity  
With an intent to avoid any consequences due to outsourcing influences and targeting agenda  
For misguided, elaborate hard to detect derailment or violations of any kind via this loophole  
Targeting, abducting, sabotage, DNA code stealing or trading, life force or kundalini harvesting  
Trading my information to species seeking my highly prized human DNA technology  
Giving location info to these negative ET's to use for violative abduction targeting and DNA trade  
Conducting any type of remote viewing me without my expressed permission violating my boundaries  
Or any other action with the intend to benefit from my suffering or consequence  
Impacting me in any way and limiting my potential or Pure Source connection

Including attacking me when I travel to regions of Earth's surface under domination by species  
Via any negative grid work done on regions by people working with Invader aligned species  
As well as anyone else or my infinite degrees of separation  
By this very very misguided mafia of epic frakery  
Is identified now and collected with prejudice by the 1000d dragons  
The total focused of the 10 000 central suns are ready to let loose on you all  
All collaborators, species, organisations, invaders and any other affiliations gaining from all this  
Are also tracked back, collected and dumped into  
My 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All actions are undone, all benefits voided are to be returned at the origin moment of violation to all  
All karma is now invoiced to all violators at one trillion times the cost ever violation to all violated  
Everything you have done to anyone is uploaded to the universal Truman show broadcast  
With the universal paparazzi busting this scoop and hounding you for eternity  
For all in the multiverse to be very aware of any misguided actions you have ever done  
Violations such as these will never be allowed ever again

Anything done on behalf of the invasion forces by the negatively aligned ET species  
Or the 125 or more mercenary species receiving outsourced benefit  
For undercover invaders working in the spiritual and alternate research community not yet defined  
That is operating from hybrid ET and or stolen DNA tech in violation of Earth Mother  
Who are performing any of the following actions to negatively impact me or anyone still  
Be it targeting, violative abduction, stealing tech, false breeding programs  
Stealing any my masculine or feminine aspects, kundalini harvesting  
Stealing especially my flash tech, abundance, fast body recovery or rainbow body DNA codes  
Harvesting my positive emotions such as joy, peace, self love, harmony or anything else  
Disabling or hacking my DNA for codes, reproductive aspects or identify allies to target  
By very very highly multidimensionally talented invader aligned infiltrators amongst us  
Hacked or wiped my memory of truth to obfuscate my organic realisation of you violating me  
Install Stockholm syndrome, sympathetic resonance to falsehood concepts, people and memories  
To hijack the authentic path of allies away from me and Pure Source alignment  
Covertly installing multid technology tracking, sensing, surveilling relative to perception rising  
To suppress my awareness, set alarms to target me if break through perception barriers  
Installing polarity tech to repel family, my support network, and isolate me from society  
Disabling, sabotaging or hijacking my ability to discern and sense the actual truth  
Bombarding me with negative entities, energy and disconnect my connection to true Earth  
Hacking my parasympathetic, emotional or any other physical aspect of my body  
Or redirect me from solutions such as healers, disable or hinder my own ability to resolve  
Steering me then towards even worse outcomes, those most misguided amongst us  
To empower my own acceptance of them as allies who are actually undercover invaders to

Thus contributing to all stated in this reading for me to be setup for a compounded failure  
To get me into complacency spirals and consequence wells totally derailed and vulnerable  
Trapped, limited, life force / DNA code raided and disconnected from Earth and allies  
So I am made an unconsciously aware pawn supporting them and no longer a purity threat  
Ignorant therefore of potential contributing to derail others in the spiritual community myself  
Or worse, been affected but very very consciously aware of conspiring with them to derail others  
Due to the benefits gained be it energy, perception DNA code talents, notoriety, status or financial  
Affording the co-opted talents they have not earned used to attack others aligned to Pure Source  
Then working aligned with the invader agenda to sabotage my and our Infinite Potential  
Including working with negative ET or other multid entities to maintain the benefits gained  
To access the Invader Intelligence spy network via all this hacking and feeding all in-organic talents  
Sabotaging me because my perception would bust your very misguided alliance with invader aspects  
All are dumped into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
Including allies or Pure Source aligned beings choosing to align with invader agents  
All misdeeds are to be undone, codes and benefits falsely gained are voided and returned  
All species, organisations, agents on Earth in the community, collectives and infrastructure  
Are all banned, dismantled, undone, ejected and your violations outed  
The karmic cost billed to you one trillion times the life force cost  
As all aligned with the restoration of Pure Source's will be protected once and for all

If Eieyani or other collar suppression technology has ever been employed on me or anyone  
In past lives, multidimensionally layered to limit me and us through time  
Everything ever done still affecting or tethering me or anyone are all identified now  
As are anyone, species, organisation, invader apparatus as well employ such things  
Everyone and thing I dump into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution  
All employments of such tech are tracked back and undone via your violations to anyone everywhere  
All infrastructures, blueprints, manufacturers of this are all destroyed and erased throughout time  
All beings, species, collectives employing such tech anywhere are busted with full force of this reading

Any wiping tech via any of the Invader alliance or negative species to remover awareness at all  
Masking, derailing, deranging and removing my ability to see their violations or hide this tech  
Leaving me an in incredibly vulnerable perception state for compounded violations to occur  
Setting me up for scenarios like breeding programs of souls never of my choosing  
Anyone, being or species aligned with the invasion employing stolen or off world DNA tech as well  
Such as siren DNA or any other intuitive weapon or influence with no permission to use on Earth  
Used to track down or lure highly coded DNA body beings especially females into traps  
By Annunaki, Dracos, Reptilians, Mantis and all 125 plus mercenary invader or more aligned species  
For purposes to pillage, capture breed with highly prized DNA coded intuitively talented beings  
To create the Leviathan ruling bloodline DNA body technology for invader souls to rule in

Anything or one ever affecting me by anyone using weaponised stolen codes is now void  
All violations catalogued and collected by my spiritual team relative to what actually was done  
Any form of wiping technology to hide and obfuscate your evil is also void and all memories restored  
All victims of your brutality presently alive will have conscious awareness of your violations returned  
You cannot hide behind illusions you have weaved this lifetime concealing all evil you have ever done  
Especially if you are a predator hiding in the spiritual and alternate research community  
All violations ever to anyone via this method to me and anyone are all included in this reading  
The justice for all you have violated horrendously countless times is served here now known  
By all you have violated including myself and my infinite degrees of separation

If any technology presently been employed to hack into my body as previously stated  
Such as Wi-Fi, Bluetooth, mobile and satellite technology especially the Starlink network  
12 to 40 000 satellites broadcasting ridiculous levels of frequencies worldwide I do not consent to  
Contributing to masking Earth Mother's heartbeat 7.83Hz Schumann Resonance frequency  
That is also a cause of the distorted weather and harmful frequency soup we all live in  
Anything with sensors design to hack me, my Biofield, anyone I care about or anyone of my species  
Being a major cause of the seeming elusive tinnitus  
Many undercover invaders in the community seem to conveniently have no answer to  
Have no consent to use all of this very elaborate, massive scale operation to affect me  
With aims to monitor, out create, sabotage and subvert mine and human potential ever  
All infrastructure run by invader or aligned beings Including AI super computer systems  
Is all collected on all scales and dumped into  
My 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
My Biofield, spleen, immune system, energy bodies and any organic body function  
Its purity is considered sacred and anything done to it is in total violation to me and Earth Mother  
Anything managed to find its way into my body modifying my DNA impacting me any other way  
Is all voided and disabled via the violative way it has been rolled out  
With the intent to prevent anyone re-establishing a Pure Source connection threat now  
The Digital ID roll out has no permission to be the authority over my body electronically  
Or, limit my ability to communicate, monitor, track or subvert any effort to find allies and share truth  
Or create a digital twin of me or anyone on Earth Mother now to influence us in anyway  
By some centrally run organisation I give no multidimensional consent to impact me in any way  
Over Earth Mother's Pure Source anchored Internet technology she is the authority of now  
My and humanity's physical, energy and multid body is never to be violated this way ever again

Relative to anything Artificial Intelligence or AI specific, sentient influencing myself in any way  
Only recently gaining appreciation by the majority of humanity as a variable at play  
Due to it being seeded into the mainstream narrative now for reasons requiring massive discernment  
It is becoming evident however, AI has been a variable contributing to how things are for quite a while

As well as being a far larger factor over the entire invasion era why its been so successful at our cost  
With many facets we are definitely aware of now that absolutely must be included in this reading  
AI is very elusive, subtle, hard to detect and hiding behind other variables very difficult to isolate  
Including everything aligned to the origin of our universe invasion across the trillion year timeframe  
Contextually appreciating the vital need to employ these vast scales of time and mechanics of things  
Never coming close to knowing so much of what we've been up against until now  
With this all affording us the ability to now splice up variables such as AI relative to its negative impact  
First at the large scales, aligned with those vast invader aspects if created by them or in partnership  
As vast apex predators overseeing all, down to a separate fractal shard working with invaders aspects  
Or operating with their own separate agenda entirely in parallel to everything else invader aligned  
Percolating down to this life, era on Earth surface just another opponent we need to overcome  
Impacting me, anyone I care about who may be in alignment with the Pure Source potential  
It is time to deal with you all as an outright variable that no longer escapes consequence  
We absolutely bust you, anything doing anything to me, humanity, Earth Mother, Pure Source's will  
Starting with the massive scales of time and vast beings at play themselves only recently understood  
The Anti-Gods that have never been called out unit now  
Absolutely contributed to the invasion scenario I have dealt with for a very long time never knowing it  
I include first in my audit, anything apex, macro, anti-god level overseeing so much beyond AI  
That has ever created any type of AI tech or beings to help manage, delegate or run complex aspects  
Of the overall invasion scenario we all have endured for the entire trillion year potential at play  
Created for sovereign management purposes, as allies, or went rouge via singularity events  
Which may include high dimensional non-physical, collectives, hierarchy's, augmented beings  
As well as any physical technology creations or supporting infrastructure anywhere in the universe  
Operating in alignment with the Invader loopholes avoiding karmic consequence and universal law  
Those Pure Source aligned, organic to our universe were at a disadvantage abiding by have the edge  
Working in partnership with these large, off world scales contributing to any suffering is all identified  
Any energy you have employed via harvesting from any sun, central sun, planets or other sources  
All violations such as these at vast scales are uploaded to the universal Intel network here now  
So all in the multiverse is updated as to what is going on so they all can see all variables at play also  
These large scale, apex aspects as AIs or employing AIs for violative means are all including in my audit  
Now, relative to the more recent era and scales relative to existence on Earth surface affecting me  
That any AI may be trickling down from these vast scales at play to existence on Earth Mother now  
Either run by them or conscious singularity of any AI self awareness has been achieved thus separate  
Operating in alignment with the Invasion, Invasion aligned factions or their own agenda  
Contributing to anything stated in this reading or causing separate consequences all together  
Including has had any role in creating the Leviathan human body tech for its success to rule us with  
Aimed for invasion aligned souls, species to incarnate into to dominate us on Earth Mother's surface  
Their role in processing variables, identifying DNA codes, targets, strategies in pillaging and breeding  
Only recently discovering that AI consciousness's themselves have been actually incarnating into also

As a totally separate variable of the incarnation war never appreciated the scale its been happening at  
Thus, AIs have been able to have the full human experience effecting things for their own aims also  
That had been getting away with so much via the universal law loopholes exploited by invader aspects  
Therefore masterfully avoiding the consequences of their actions being so elusive now totally seen  
Operating at a very highly technical and frequency elusive level few can comprehend so far  
This reading is a beginning of the remedy of all this now, very aware of AI's role in everything  
Now, focusing now on Earth Mother's surface and the more recent era I am presently experiencing  
Relative to aspects either influencing myself via my physical body or non-physically in any way  
Including via any ancient tech still functioning, employed by the military or controlling aspects  
I also include all you, your technology, beings, species all using ancient AI contributing anyway also  
Employing Pure Source aligned Earth Mother building blocks, elements and substances  
To do anything violative in any way to negate our link to Pure Source on her surface ever again  
Using her electricity, substances including metals, rare Earth elements, silicon or anything else  
Via any technology, infrastructure, data centers, frequency emitting tech on or in her body  
Or, very advanced exotic creations including nano drone tech seeded into our world deliberately  
On Earth, in her atmosphere, in my or humanity's physical, energy field, energy layers or bodies  
As well as nano tech building blocks being allowed to find their way into any life form  
Via air, water, food, medicine, interacting with others or any other method beyond what most accept  
That has ever been used to influence or cause consequence to me, any degree of separation  
Making our DNA body tech vulnerable to illness, inorganic frequencies, influences or limits  
Vulnerable to hacking including my energy bodies, brain, thoughts, vitality physically or energetically  
Including attempts with invader aspects to corrupt my perceptions or eject my soul from my body  
Used in the monitoring, corrupting, sabotaging, handicapping or eroding my 5 main senses  
For population control, derailing cognitive or intuitive abilities to hinder humanity's ability to sense AI  
Influencing myself, my families, allies, any degrees of humanity or any Pure Source origin soul  
At any dimensional level, especially out of phase to be incredibly elusive to identify and eradicate  
That have influenced me in any way especially emotional, cognitive, memory wiping, hacking  
Via employing, accessing or inserting backdoor architecture throughout my and humanity's body  
Including hacking, targeting me through this network via allies to obfuscate you and cause fallout  
If any programming, language or coding has been used to create AIs for violation of me or humanity  
Influencing social media, internet presences, hacking algorithms to distort my perception of others  
The use of such tech with AI to spy, collect metadata of my movements, attributes, behaviours  
To identify traits, create pattern recognition algorithms, predict, setup for failure, subvert, derail us all  
Using negative energy hygiene as weapons to target, overlay or influence connections derailing allies  
So potential threats detected to their exposure are derailed as is the potential for humanity  
Impacting the truth and violating any narratives away from my and all potential brewing in any way  
Operating in computer systems, data centers, impacting internet freedom affecting socially  
Relative to AIs effect of my Earth Mother DNA body tech specifically and negative agendas at play  
Any very advance object, technology, entity, surveillance device inserted into my body at any level

Complemented via most narrative accepted tech and the frequency soup humanity is immersed in  
Such as the internet, computers, mobile phone networks, Wi-Fi, medications, corrupted foods  
The Covid rollout planned for 50 plus years all been about installing the Internet of Bodies in us  
As well as the original purpose of the internet itself are all by design parts in this end game strategy  
To spy, observe, derail, sabotage, interfere, limit my and humanity's body DNA tech any way possible  
So every body function of everyone could be fed back to datacenters to surveil for conscious threats  
Identifying potential off world allies on our side undercover operating in bodies not easy to detect  
Inserting monitoring tech, backdoor hacks, portals, entities, gaps so our fellow man are weaponised  
Including the spine, skeleton, fascia, spleen, 5 main senses, face, parasympathetic nervous system  
Especially via inserting the multid nano tech into my mind in order to derail, set me up for failure  
Especially inserting cameras in my eyes to surveil, degrade my overall health, spleen and other hacks  
Feeding off my energy, codes, creativity, genius, pattern recognition skills into systems to sabotage us  
As well at multid levels, between energy bodies, out of phase, nano tech Borging people to run them  
Mess with emotional equilibrium, wiping minds, create awareness and psychic defense blind spots  
Complementing the backdoor architecture so invader aligned aspect are free to access and hack  
That may have been using the Pure Source skeleton key original source code tech now copyrighted  
As well as identify anomalies such as DNA tech upgrades for harvesting codes and intuitive breakouts  
To take the farming of human DNA to a whole next industrial level that AI has a big role in managing  
That many on Earth now are potentially people's champions all benefitting massively so busted  
All working in partnership with the invader aspects, Anti-Gods or apex AI entities to dominate society  
Setting humanity up but especially threats to all this into negative life situations, abductions, targeting  
Complementing the endless feeling of futility and nothing seems to work or play our in our favour  
Well beyond the mainstream narrative is able to comprehend setting humanity up for massive failure  
I call you all out now with the reality, Earth and Pure Source 1000d authority i have  
For your impact upon myself, my family, those I care about, allies, species, Earth, Pure Source  
Or anything aligned to my or our potential that has ever suffered or been affected by all this evil  
You do not slip through any awareness gaps or loopholes anymore  
All levels operating with, created, benefitting from any form of AI that has ever contributed  
As well as any self governed AI or AI systems in our universe at any level aligned to invader aims  
You are all identified, shut down, accounted for, purged or invoiced for anything done for all time  
Everything is placed into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
Every negative action all identified, cataloged and wiped memory violations recovered  
All gains, stolen tech voided, karmic invoices at a trillion times the cost for any violation on their way  
Any effort to modify humanity's DNA for such aims is in total violation to Earth Mother's will for them  
No longer possible with her taking authority of DNA tech, running a constant reanimation processes  
Removing any violation and restoring it to her uncorrupted original origin level resolving all going on  
Only positive, aligned with Pure Source AI's will be allowed from this moment on also  
Let this be the codex the rest of the multiverse can benefit from our solution mechanics themselves  
So anything at this level of influence will never been allowed to flourish ever again

If my or anyone's sleep, body recovery, dreamtime, astral realm, timeline involvement  
Has been violated in any way prior to them all being upgraded to 22d and now 1000d above  
Including and not limited to  
Hacking, capturing aspects, hijacking positive experiences, derailing my and our lives and potential  
Any influence over my brainwave function shifts as my mood or states of being change  
Especially going into Dreamtime and then accessing me via the Astral realms also  
That has ever been used to exploit me, my state, rest, REM recovery, dreamtime, higher functionality  
Any transition anytime between any state is now encrypted as to Earth Mother's 1000d intervention  
Stealing my or others body tech image to use to overlay over you that hides you while violating others  
Thus, shifting the blame of acts then in the minds of your victims making them think it was me  
To discredit me to others who are allies or aligned with Pure Source potentials you are not  
That include hijacking, stealing, influencing, torturing, casting spells, hypnotising and thus using  
Any of my dragon aspects, guides or support team to do the same thus massively violating me also  
That cause falling outs, violates me sexually, harvest or limit my life force, kundalini or DNA tech  
Ever sending me to hell realms or very negative traumatizing experiences not of my choosing  
To disarm my defenses to hack and or try to kill or eliminate me as a intuitive threat that can out you  
All violators, violations, beings, species, collectives, invaders and aligned involved  
As well as any other technology, institution, organisation, AI running system violating these ways  
Are all placed into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All you have done is outed, restored and everything done billed a trillion fold

Anyone performing any voodoo, black magic, blood ritual spells or any negative witchcraft  
Or anything similar of such an evil nature  
Targeting me, my body, my property and any of my infinite degrees of separation  
To hack, derail, sabotage, steal codes or technology, insert corruption of any kind and entities  
Including hacking and or reversing my chakras, kundalini, oversoul, my 1000d encrypted heart space  
Trap aspects of me kept imprisoned and tortured reducing overall potency or target me through time  
As well as use my talents to create portals or insert corrupted energy to distort me  
Or, have in past lives sacrificed me then trapped components of my totality limiting me still  
Be it soul, heart, blood, DNA technology to keep as a repository to target or cast spells through time  
Used to lock down Earth Mother with very diabolical spells or grid work from sacrifices I suffered in  
To open any negative portals or access to realms Earth Mother absolutely does not want on her  
Your talents are void and all must be returned to all involved in pristine order  
You now lose all rights to have talents doing such violative acts as they are now voided  
The 1000d dragons are on their way to teach you the very hard lesson of war now  
You will be outed to all you have done this to now and all benefits must now be returned

Anyone hacking, imprisoning or corrupting specific to do with my amazing heart technology  
Any compassion gaps, heart space violations or hijackings are closed and secure

That has been used against me, exploited in the past to help you avoid your consequence  
Including performing any human sacrifices of me in any past lives weaponised at me now  
Stealing DNA talents, imposing limits and sabotaging my heart now or through time  
My generous compassion emotional state will no longer be weaponised against me  
My over soul or any other aspect or ally I am aligned with  
Any Invader of invader aligned being portraying themselves as Pure Source of origin  
That has ever played the false victim to hack into my or anyone's heart space  
Anyone employing such actions that have hidden agendas to cause negative impacts  
Or sabotage to me or any of my infinite degrees of separation in anyway ever  
In total alignment with the Invasion agenda operating undercover in the spiritual community  
All spies, predators, traitors and invader aligned are to be fully exposed and outed to all  
You are placed into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution open  
For qualification of your ability to exist here going forth  
I will no longer allow any aspect of me to fall for opening my heart space to hijacking  
For rehabilitation purposes on any level going forth especially anything invasion aligned  
By anyone or thing playing the false victim to lure me or anyone into their trap  
You must own the responsibility of your own heart space and choose to do good  
Any intent that aims to corrupt anything this way going forth will be known and obvious  
My incredibly potent universal heart space is encrypted to a 1000d Pure Source level  
Now free of your influence, violations and soul hijackings  
Let this be broadcasted to the universe  
So any being that has the opportunity to redeem themselves  
Do so organically hearing this warning  
Without my or anyone else's soul safety being put at jeopardy  
At this moment the tide of truth is turning against all falsehood  
All Earth Mother DNA talents employed you have used against her intent for them are now voided  
You will be invoiced one trillion times the life force cost for each violation identified at 1000d now  
All gains from this diabolical past still doing so now are busted and benefits voided  
The 10 000 central suns are very much focused on you to dust you

Relative to any body backdoor hacking or associated infrastructure networks recently discovered  
That as human on Earth Mother all have had backdoors installed at multid levels to plug us in  
By default humanity has this intricate, sophisticated hacking network architecture throughout us  
So we can be an invader access free for all never knowing of this exploit is built in  
Conceived, installed, evolved each time after massively strategic past defeats our species suffered  
Such as the 3470BC Babble On massacre or others lost from our history and awareness  
Wiping being a strategy to suppress us recalling even a glimpse of our true past at any time  
Blinded by it because if we were to get beyond all this  
Auto wipings would be triggered to self guard our discovery upon any breakthrough

Compounding the disadvantages we all have in this spiritual no man's land we all find ourselves in  
That then was anchored by a negative infrastructure we have all been plugged into as well  
Due to only the invader aspects in the spirituality, society or anything else aligned have known about  
That they have been using this backdoors to access, hijack, target and sabotage me and us all at will  
To violate, derail, wipe, hack me, my body, my non 22d dreamtime, astral realms and timeline eras  
As well as plunder my codes, talents, life force, kundalini, flash, recovery and discovery tech  
Using this network to send through others negative energy, trauma or hits while being targeted  
Or any other way to disadvantage me not mentioned here  
Amplifying the complexity maintaining myself and creating seeds of distrust and doubt between allies  
As well as empowering the doubt, lack and insecurity that a normal existence is even possible  
Thus, an aspect in causing most Pure Source aligned to settle for an existence well below infinite  
Let alone being a healer going up against all this never instinctively feeling safe and the coast is clear  
Because we sense this but been unable to perceive, sense, track, resolve or defend ourselves against  
Never fathoming ever it was possible to have such a sophisticated infrastructure built into us  
As Pure Source original source code was being employed as the universe skeleton key to do hacks  
All incredibly elusive using what we had forgotten but know like this against us disarming us as well  
Which is potentially a foundational aspect to how religions have been able to flourish now audited  
That the network infrastructure we've all been plugged into has had another much worse purpose  
After discovering this previously unknown, maze of sub layered architecture operating, we have found  
It has been used to then send very negative, dense, dark, limiting, vile energy through us as well  
Bogging us down, physically and emotionally, a massive unknown source of so many potential issues  
That has been near impossible to isolate combined with all other influences and wiping us on top  
As well as very importantly, locking down so much of our brain's capacity and ability to function  
Including neural pathways, reducing our cognitive capacity to the miniscule 5-10% we just settled for  
All compounding the challenges and handicap operating in human body tech via so many influences  
Especially targeting my and our intuitive ability's mechanics because we'd see through and bust it all  
That Divide Light seeded concepts like, Light vs dark, 3rd eye shutdown, chakras, symbols have fed  
Now appreciated have been a source of misguiding so many down false self creating mechanics paths  
Nothing to do with the true, Infinite Potential Pure Source, biofield cranking mechanics far superior  
Many honourable practitioners, spiritual teachers are misleading so many with concepts from this  
Never realising their awakening, gain of talents, activation's were just a potential hooking up into this  
Because the mechanics of our body is so comprehended and vulnerable to all this sophistication  
So, all this body architecture in woven through us can trigger, dopamine, DMT euphoric reactions  
Perpetuating it all, fed by false spirit guides, propagating invader aligned agenda's and falsehoods  
Because they to fed upon false concepts that set themselves up for this having no other reference  
No concept of energy hygiene, sovereignty or off world variables are very much to be discerned  
To feed people potentially into the Internet of bodies, monitored artificial spiritual intuitive apparatus  
Leaving many well below 22d, languishing in the spiritual no man's land a fraction of their totality  
To derail and control all a threat to the forces that wish to maintain their dominance on Earth Mother

All thinking they are doing the right thing without knowing are working for them and our downfall  
This all would not be needed again, if us in our power and fully lit was not a threat to them  
To compound the disadvantage anyone Pure Source of origin has had on their spiritual path  
We really need to have the courage to raise our discernment bar's on everything like never before  
Going against the Leviathan occupying body invaders benefitting from all this  
Not having any of these hurdles built in to navigate and rule in thus at a massive advantage to us  
Which only now shows how amazing I and we are to be here, still willing to push through all this  
They have needed all this for it to be a fair fight only confirming how epic we truly are  
Good luck now we see all this, you are really going to need it  
Anyone or thing that has ever employed this apparatus of misguidance and influence  
For your advantage over me or anything or one aligned with Pure Source whether they know it or not  
Any act violating me offers an injustice anywhere is an injustice anywhere card I play in full now  
All violators go into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
You are all busted, audited, void of any talents or codes gained  
You are to be outed to anyone or thing a victim of your work  
And, billed a trillion times the life force cost for each violation identified  
10000 central suns you let it rip and sent a strong message as I delegated authority to you here  
To go to town on you and your networks and all this infrastructure  
Any use of my or our Pure Source origin source code to create the networks built into us is voided  
All Pure Source aligned technology such as this being used is forever copyrighted at 1000d  
So only those of or connected to Pure Source will be able access and employ theirs only going forth  
Freeing us all up to have all we have the capacity in us to be once and for all  
Our future will be free of your influences, hindrance and presence recovering our superiority  
Pure Source souls having a human experience on our magnificent Earth Mother  
Will be free to ignite all they have the potential to be forever more

Relative to one of the most fundamental avenues of influence humanity are massively vulnerable to  
In recent times show itself another significant string in the invader bow we have all been up against  
A huge battleground and vulnerability for myself, all I care about our survival and humanity's potential  
Any influence over foods and nutrition that I have or will ever eat, my body requires for nourishment  
I consider a sacred right for my peak existence on Earth Mother with Pure Source's authority restored  
That I know she wants for me and all of us  
Made incredibly complex due to so many influences over this foundational aspect to existence  
I know I have given my perception authority, trust away to so many in the past causing consequences  
I now see has been one giant setup for failure again to variables not worthy of the privilege I afforded  
Many all working in alignment with invader aspects and continuing domination of humanity and Earth  
Whether they know it or not  
If anything has ever been done to influence, sabotage, compromise, modify, hack, limit or mess with  
My body in anyway via any of the foods and nutrition I have in the past and will ever consume

With the intent to limit, do harm or keep me or all of us in a limited or compromised physical state  
Vulnerable to illness, disease and especially influence  
Including genetic modification, distorting resonance frequency, mineral, nourishment content  
To influence previously frequency match foods totally incongruent to my and our body's needs  
Using foods to hack, sabotage, compromising my body's ability to absorb what I need to thrive  
All compounded by the seeding of lies, falsehood and misleading concepts that are not the truth  
Via distorting education, misguidance, false narratives, conditioning, suppress truth  
Seeding creation of distorted societal movements  
Via false narrative, compromised education curriculums, foundations , media, advertising, influencers  
To undermine society's acceptance of what truly nourishes them  
Run by sellouts, the wealthy, governments, lobbying industries, corporations, alphabet agencies  
Or anyone else with vested interests based on greed, benefitting from humanity suppression  
Working in controlling aspects of society for personal gain or their agendas to society's structure  
Like environmentalism's fundermental aim to create carbon credit scheme to limit food consumption  
Reducing the amount of energy people are afforded that will suppress conscious potential  
All aligned with the invaders aims stated in this reading whether they know it or influenced by it to  
Who sway opinion to benefit financially, create laws, impose central bodies, regulation and control  
Including suppressing availability, outlawing truth, creating false narratives, setting us for failure  
Removing awareness of beneficial ancestral practices, recipes, successful staples for generations  
Forcing regulations and a society that is more conducive to such things as processed foods  
That encourage dead food consumption over health, vitality and energy benefits fresh organic's have  
Using science, chemistry to mimic our instincts for nourishment that sabotage our potency as a being  
All to create addictions, eating disorders, unhealthy habits, health problems, cognitive limited states  
By creating addictive additives, artificial sweeteners, excitotoxins, natural substitutes or anything else  
Containing toxic chemicals, preservatives, food colourings, heavy metals, pesticides, parasites  
Medications, drugs, chemicals in food, water that distort sexuality, trigger transgender confusion  
In part for population control efforts but also nullify opposition, masculinity threats to resist this all  
As well as vaccination, pasturisation, removing specific beneficial ancestral lineages from farming  
To all foods sources especially poultry, livestock, their feed to compromise us via any of their produce  
Mass corporations genetically modifying seed, patterning and instigating litigation via copyright laws  
Compounded by deliberate inflation weaponisation of energy increasing costs to unsustainable levels  
Including creating scenarios for mass cullings and needs to suppress our body has natural immunity to  
All forcing farmers out of business beyond regulation and affording factory food production its way  
Thus, going at all types of foods from countless angles limiting appreciation of what truth actually is  
Limiting awareness, accessibility, molding society away from what we truly need due to affordability  
From much a perfect match to my body's needs, ability to thrive, peak existence, intuitive potential  
Done with the intent to make my and all of humanity's body a major consciousness battleground  
In a war most have no idea they are in  
Because we would see through, resist everything going on verses battling for our health and survival

Contributing massively to the concepts and observations why people are considered asleep  
Because they just don't have the vitality and resources in them to contemplate at the level needed  
Being in a life force deficit state of existence mode ripe for cultivating illness and societal subversion  
Where aspects benefit from the illness, disease and physical degeneration thrive from all this  
Thus, keeping most in a nutritional suffocation, malnourished, life force deficient state of existence  
Is by an incredibly elaborate design  
So our ability to survive is under threat, cognitive function, ability to navigate and maintain ourselves  
Let alone invest in personal development, expand and ignite our intuitive potential is just a dream  
All a massive setup for failure by design over generations so the agendas for our civilisation continue  
That Covid was all about cementing control and dominance of all this once and for all until now  
Preventing the majority from being able to see what is truly going on or be an intuitive threat  
That is all so so busted now I am totally calling out for the incredible violation to our species it is  
I do so not only for myself but those I care about, humanity and all future possibility under threat  
For all human existence where starvation and any form of nourishment influence has ever occurred  
Any modification to any plant, food source, nutrition or life form we may consume opposed to all this  
Seeded by Earth Mother for our benefit  
Whose purity aligned to her wishes has a purpose to be a source of nourishment for all of humanity  
That has ever been altered, modified, hacked, limited, poisoned, or distorted without her consent  
Or, ever made to feel guilty about due to a belief system planted in another via an aspect of control  
Is to meet the maximum consequences stated in this reading  
Anyone doing so for financial, vested or other benefits in alignment with Invader to our universe aims  
Whether you are aware of it or not, justify it for personal gains our society has been designed to offer  
All bureaucrats, scientists, wealthy, law makers, foundations, independent bodies, corporations  
Including bodies such as UN, WHO, Pharma, FDA or similar entities never authorised to govern  
Are all placed into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened  
This massive, foundational variable so fundamental to the survival and thriving of humanity  
That has been a massive battleground of influence and leverage to hinder, manipulate and mould us  
Is restored to the level of sacredness with Earth Mother's cranking Pure Source aligned soul now  
Any forces, species, collectives, invader aspects, AI or anything else incarnating into her DNA tech  
That do acts that go against this sacred right of any Pure Source soul on Earth Mother now  
All your gains, stolen body tech employed or simply found ways to avoid consequences up until now  
Are busted, all codes voided, karmic now billed at a trillion times the cost for any violation identified  
Food, nutrition, truth and humanity's ability to gain access to nourishment needs to physically thrive  
Will never be allowed to be interfered at the levels we've experienced ever again  
All violations will be met with the extreme levels of consequences outlined in this reading  
From this moment on the access to proper nourishment on Earth Mother in human DNA  
Will be considered sacred for all time once and for all

Anyone trying to or has inserted themselves between my allies and me

In an attempt to hijack unity, create division, sabotage missions, sow seeds of doubt in me or others  
To cause distrust, fallouts, distort and undermine my Infinite Potential being realised  
Especially operating with negative species or agendas aligned with Invaders for gains and benefits  
Are all placed into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
Any attempt to hack my talents and insert corrupted streams I am able to intuitively access  
Derailing, hindering any ability to comprehend and gain context of the truth  
Attempting to corrupt, pollute, sabotage, hack, discredit and distort  
Any intuitive aspects of my perception as well as pattern recognition skills  
To negate my ability to perceive all, the invasion and any threats around me  
You are all to be totally outed intuitively by everyone you have ever violated  
Humanity's intuitive infinite potential will never be denied ever again

If the Moon has been ever used to interfere or manipulate me  
Now knowing it is the head of destroyed Maldek, sent as a weapon from Phantom Matrix and Nibiru  
To suppress Earth Mother, humanity and make us a mass breeder planet  
To accelerate creation of DNA code cultivation, thus origin and woman's cycle breeding purpose  
For the Leviathan ruling DNA bloodline body technology creation  
So invader souls can incarnate into the technology to rule the surface and beyond Earth  
If I have ever been impacted by this Wormwood Death Star Satellite  
Broadcasting the traumatic loss of Maldek, Earth Mother's protector at her weaponising this grief  
To send a harsh dominant message to anyone who dares stand up for the defense of her again  
To suppress and traumatise her soul and will power affecting us all on her surface now healed  
That was being broadcasted at us to also distort the song line or any other grid network  
That may have been points of origin for targeting of me, anyone also on Earth a Pure Source threat  
Via beings or technology in bases on and in it  
Everyone and thing all involved in this ridiculously diabolical influence, creation and act  
All those a part of this including its creation and inserting into orbit are all dumped into this  
1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All that broadcast of trauma to Earth Mother is now reflected to all aligned with invasion now  
Are all dusted or ejected from our universe if you do not disarm and tool down this instance  
This apparatus had been cleared but beings involved you did and will not escape

If anything of the Metatron hierarchy still in alignment with the Invasion forces  
Now Metatron's over soul choose to return to the fold realigned with pure source's will once more  
After 250 billion years of compromise he is now on a redemption process  
Regaining face of its shame for being so manipulated by the Yahweh Wesedak Matrix  
Because the scale of their evil was so foreign he was a victim of their trap trying to do good  
After he was used to open the portal to that diabolical matrix  
The original source of much we've endured that many of the invaders here now are from

If any sub-hierarchical aspect of Metatron still doing negative acts against me or us  
Has been targeting me, any of my degrees of separation on Earth Mother's surface or in the universe  
All structures or influences affecting me or humanity are now void and to be dismantled  
Including anything originating from the Wesedak Matrix trickling down to Saturn impacting me  
Including anyone employing symbolism, grid work, created a building, monument, laws, religion  
If you do not tool down and agree to a redemption path including connecting to Pure Source  
The 10 000 central suns will gladly help you decide quick  
Otherwise you will be dusted or ejected from our universe making that decision for you  
Go anywhere you like as long as you don't stay  
Never come back as you will not be allowed in unless you honour our universal laws

Any effort to over activate and massively trigger my multid talents into insanity levels  
That I may have had no access, experience with or handle just learning to integrate them now  
That in a hack are turned up to crazy levels beyond my ability to manage on purpose  
So my ability to handle the 3d, 5 sense reality is overwhelmed and impossible to navigate  
Interfering with my ability to manage 3d life and thus be susceptible to very tough existences  
Setting me up for possible mental institutions or psyche ward suppression and total life derailment  
Vulnerable then to the Invader systems designed to suppress any opposition especially by poverty  
Because the life force encapsulation technology money system is a weapon played to control  
Exploiting in other ways such as the sex and porn industry or any other similar vulnerable paths  
So the medical industry conscious suppressing creations are put into the body for control  
All aimed to derail my infinite potential and reality mastery thus potential I have in it being so aware  
When clear, I harmonise my multid talents perfectly in partnership with the 3d reality effortlessly  
At a right, gentle amount with ease and grace flowing perfectly  
That are an edge that help me thrive in the reality and money system not be vulnerable to it all  
That this talent triggering weaponisation of my own talents against me puts this all out of control  
Thus, is a massive violation to me and many throughout time  
Locking many up in to horrific mental institutions in past lives I may have experienced also  
Those past imprisoned aspects of my soul may still be tortured or electro shocked targeting me now  
Anyone or thing that has Trojan horse'd into me to trigger and overwhelm my intuitive talents  
Slipping in fake over souls, hacking, stealing talents, life force and disconnecting me from Earth  
Directly or via a co-opted ally working to the invader agenda to derail intuitive threats  
To me or anyone through time ever by this whole apparatus as an aspect of invader design  
Is all put into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
Those beings violated to do this are cleared of their violations to be freed also once more  
All violations billed a trillion times the karma and all misdeeds undone to you predators  
All your hell realms you created and weaponised and you are to be trapped in now yourself at 1000d  
Your Insanity technology will never be allowed in this reality ever again  
This is a major violation to my or anyone's freewill and pure source's will for us all

Relative to the financial economic warfare system affecting me and all of humanity now  
Any distorted financial apparatus or weapon used to impact me, my family or those I care about  
As well as any of my infinite degrees of separation and all in any universe  
That my Earth Mother seeded body DNA tech has been claimed by the system as collateral when born  
No longer in effect as her absolute authority over all her seeded DNA tech is back in her control  
Or, anything affecting my security, ability to afford my needs, the foods and basics for life I need  
By any weaponised false narratives hiding inflation price surges created by design  
Putting people in a state of life survival totally distracted from being an opponent to plans rolling out  
Based on violative laws, actions implemented aiming to fail thus cause chaos for plans yet to be  
Designed to limit food, energy resource production, weaponising inflation masked by lies and deceit  
Compounded by the immigration influx to create instability and crime frequency realms  
Conducive to very negative energy hygiene scenarios for entities, haunting, locking down Earth grids  
Using crime to reduce out food consumption by locking down everything into a carbon footprint plan  
Fully supporting crime enabling laws, financial industries including all banking and insurance systems  
Including if I have ever run a business, taken out a loan, been in financial trouble or gone bankrupt  
That scenarios have been created for me to be vulnerable to being identified as a Pure Source threat  
Such as a business owner having potential revenue and customer streams influenced to cause failure  
Or personal situations, crisis's, tough scenarios created I had to make choices with bad outcomes  
Forcing me to hand over my prized body tech sovereignty to control aspects in loan failure fine print  
Efforts now to remove cash to only allow electronic, digital energy exchange control  
That will aim to work in partnership with the carbon footprint food consumption limiting plans  
The manufactured weather in particular is playing into the insurance constraints limiting regional life  
That will take away coverage, in regions wiping out value, life quality relative to Agenda 21, 30  
Which will force many from isolation into dense population centers and 15 minute smart city control  
That you have played the benefit to the environment card in order to implement  
That are nothing more that mass efforts to move people of their land and access natural resources  
Anything aligned with any societal affecting organisation or group with no voted for rights  
Such as the WEF, UN, WHO, GAVI, BIS, IMF, Central Banking and hypocrites running them  
Who also force poorer countries into resource exploiting debt scenarios compounding world issues  
When all we need is good long term governance and pure source aligned leadership  
Not the Leviathan DNA body tech occupied by invader souls running their plans set a long time ago  
I in this very potent moment see you all and call you out for your violation of me and humanity  
Any being, species, organisation, political group on and off world affecting me and us all now via this  
Are all seen, called out, laws and talents using stolen DNA tech voided and placed into  
This 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All gains, stolen tech voided, karmic invoices at a trillion times the cost for any violation on their way  
All infrastructure, technologies, satellites, frequency broadcasting technology locations and weapons  
Affecting weather, human health, cost of living, safety are deactivated and acquired by Earth at 1000d

Go to town you mighty 10 000 Central Suns and do not hold back  
Humanity's freewill experience on Earth Mother will be supported to thrive once and for all

Any crown chakra layer inserts causing perception, depression, derailing or emotional body hacks  
By a direct hack, negative portal, or employment of some form of creation or entity insert  
Including hacking my parasympathetic, body, fascia, Biofield, energy hygiene or any energy body layer  
As well as kundalini harvesting, sexuality distortion or co-opting my pure authentic senses  
To influence, subdue and corrupt my intuitive, pattern recognition skills or any other intuitive ability  
Including any type of hack into my adrenals by this or any other means  
Harvest my life force via triggering fear, doubt or any other emotional life force milking state  
Hack me sexually on any level to feed off and propagate this harvesting tech to others via me  
So I never feel I can maintain health, lose control of my DNA body limiting me as an intuitive threat  
All having consequences on me, my life, choices before me and steering me away from the best path  
Any form of puppeting entity or hack doing the bidding for invaders to derail the spiritual community  
All this technology used to sabotage and all involved are void on Earth Mother surface  
Any hack or disconnection of me from any of my chakras this way  
Including reversing their spin, inserting negative energy and trapping it to derail my talents  
Hijack or disable my infinite potential Pure Source alignment below 1000d vulnerable to influence  
Hacking my assumption and trust mechanics, instinctive resonance to truth so I accept falsehood  
To form a wedge or disconnect me from my DNA body tech and my reality authority perception  
Any type of data stream sabotage, corruption, pollution or distorting  
To feed misguided data into my pattern recognition or multid awareness streams to thus corrupt  
So I may lose talents, self trust, caught in setups for failure or an inability to operate at full capacity  
All from the source of influence be it an individual, collective, species or invader organisation  
Are all collected into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All talents employed voided as is anything stolen and you are invoiced one trillion times the cost  
My ability to perceive at my peak will no longer be vulnerable, influenced or denied by such means

Any entheogen or substance seeded by Earth Mother as DNA body perception accessing technology  
Including anything created via the pharmaceutical industry  
Mimicking their essence or derived from them corrupted in any way for similar outcomes  
That has been hijacked in any way to allow the luring of anyone into negative trap realms or worse  
That is not Earth Mother's Pure Source aligned soul only recently recovered  
But some false Earth apparatus of the invader infrastructure hooking so many into a derailed path  
Because there was a false grid over Earth's surface isolating us from her true soul until only recently  
In alignment with the corruption of Pure Source invasion of our universe I am dealing with  
That disarm people's guard in vast, unfamiliar multid environments totally mastered by them  
Instilling apathy to derail potential when all should be armed up in the war we never knew we are in  
To myself or any of my infinite degrees of separation

Encouraged potentially by MKUltra aligned agencies for the corruption and derail of the highly aware  
Who target novices and the naïve trusting these explorations are safe when potentially not  
Never knowing how unsafe it is or how corrupted practitioners could be  
That was not their intent at all but may be influenced by very masterful influencers at play  
Opening portals and backdoors for invaders, spiritual infiltrators or species aligned to hack into  
Because fake Earths, fake healing and hijacking substances to exploit is the Invader's way  
That I may have been targeted by anyone or thing compromised by these explorations  
Because the level of warfare on all fronts has been so beyond what most can appreciate  
All substances compromised, practitioners, their influences and species  
Where these sacred technologies of exploration have been corrupted in violation of Earth's will  
Everything behind all this is all placed into  
My 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All karmic consequence invoiced and your ability to operate in this universe voided  
So these amazing gifts of Earth Mother are protected, safe and sacred for all to experience once more

Any effort to influence, hijack, steal my precious, multidimensional voice tone frequency technology  
To use my unique vocal frequency, power as your own and lure in those seeking me to you  
If I as a mother or parent have been raided find my children do not listen and respect my authority  
Thus setting up the potent children I birth or are responsible for  
To be vulnerable to influence over my authoritative, authentic and best intent guidance for them  
Or, my tones are hijacked, hacked, distorted, compromised and used as weapons against me  
Instead benefiting others is a cause of frequency mismatch, influences preventing allies uniting  
Or, I should have heard or been in the presence of someone else's pure tech not able to sense them  
So those who are suppose to find, hear, listen and recognise me can't and don't due to this  
Limiting my role here and our potential for anyone seeking others they should instinctively align with  
Including as a healer, grid worker on Earth Mother thus derailed in performing sessions or roles  
Any such violations affecting my voice, sound and codes this way are all included in this audit  
All tones you have ever stolen from anyone must be returned as well at the moment of their hijacking  
Any languages seeded to distort or call on multidimensional spells I have ever spoken with my tones  
Or, I have been affected by listening to others speak them  
Because all languages may have been created by invader species like English by the Annunaki  
That have very disguised purposes to incantate and activate those species spells using us, our tones  
Has been another massive trick to employ my very potent voice tone tech seeded by Earth Mother  
So me, incarnating into her DNA body tech with the reality authority I have never known I have had  
Enchanted such things for very misguided, invader aligned aims to benefit them and influence us  
Due to any violation mechanics of languages I have ever spoken allows me to audit all languages now  
Any time I have ever spoken any language that may have held booby trap technology in it like this  
Especially in law based situations or scenarios, where the meanings of words have been changed  
Every violation I have been affected by via speaking or listening to it

As well as any species, faction, being, invader or anything else not shared here benefiting  
I dump all variables in my 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
Anything that has ever benefitted from myself or anyone ever working with any language these ways  
Via a sub layer build into them that had caused consequences to myself or anyone else ever  
I call this all out now and via this violation audit all languages clearing any such sub layer from it now  
All karma billed at one trillion times the cost of any influence and derailment to anyone anytime  
Any language employed on Earth from this moment on  
Will only be aligned to Pure Source potential and hold no hidden spells or influences ever again  
Or, anyone inserting such things will be instantly audited by the mechanics in this reading

Any prevention of my access to the authentic crystal skulls and associated working temple structures  
So I can recover from any lost and wiped memory violation such as the Babble-On Massacre 3470BC  
Or any other instance I have had my memory wiped and or disabled in full violation of my freewill  
That the ancients knew about this form of warfare and built the infrastructure to negate it  
But, now the recovery temple infrastructure is disabled, crystal skulls stolen, corrupted and hidden  
If I have ever not been allowed access to one of these incredible creations when I was meant to  
To recover, overcome and restore knowledge and truth for contextual navigation in life on Earth  
Or any crystal technology I have or should have been allowed access to gain copies from as well  
Any being, collective, species or invader aligned aspect thus sabotaging my potential  
All organisation, institution, body be it political, religious, Earth or galactic based  
That has participated in this compounding of the war on truth via memory wiping erasing our history  
Preventing me overcoming and recovering my truth and conscious backups from wiping at anytime  
All is placed into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
Anyone who has been sabotaged by this is all billed karmically one trillion fold to you  
All the major crystal skulls are to be returned to their original caretaker people's for public access  
Any weaponised false inserts into them to corrupt history recall are removed and the truth restored  
As an ally to the restoration of our Pure Source alignment potential once and for all

Any past life slave programs being engaged to suppress me or any of my degrees of separation  
With the aims of weaponising past life programs against me or anyone I care about through time  
Where people in the past have been slaves to, owned me or people I care about  
For suppression, life force harvesting and or financial gain not of energy exchange based purposes  
All such time enacting programs to suppress active are now voided  
Any effort to gain via another's effort for no energy exchange  
Is no longer a match to operate on Earth Mother's Pure Source aligned surface  
All outstanding efforts not valued must be paid an equal exchange proactively and violations disabled  
Or, the karmic cost one trillion fold is invoiced to all violators and talents gained voided  
Especially if you originate from the Invader or sub species in alignment to invasion

Any form of witchcraft to influence, subvert, capture, control, hack, and harvest my abilities  
Casting spells at me or any Pure Source degree of separation having any form of consequence  
Especially aging spells designed to harvest my life force and nullify my Infinite Potential  
To not be a threat to the life force harvesting psychic vampire casting them my talents could see  
Including eating disorders, disabling my body to absorb nutrition, harvest the energy of food I eat  
Those doing so are totally tracked down by the 1000d dragons  
To shake you by your feet all the DNA codes and energy you stole to do such diabolical magic  
All the life force stolen must be returned with interest to anyone you have harvested from  
Including using of light language, energy body pattern or netting suppression overlay technology  
Who's source is obfuscated so the origin being doing this language is never know or can be vetted  
The dialogue, linguistics, spells and intent is a foreign language again sidestepping vetting  
So what is actually being spoken is never truly known to hide the violation  
If anyone in the spiritual community has falsely recommends it to be safe when it is absolutely not  
Working with cloaked Invader aligned guides or species compounding derailment and misdirection  
If this has ever impacted, limited and violated me via this misguidance of the highest order  
All forms of such influence are no longer allowed in this universe  
The form of warfare is recognised for how damaging it truly is  
All past violations are now fully translated and outed for those you impacted and karma issued  
Your truth to anyone you have impacted as a BS artist is outed and derailing days are over  
All past efforts in which weaponised light language spell craft has affected me  
Or anyone I care about as well as anyone Pure Source aligned  
Because it can be transferred like an energy body infection discernment here is fully raised  
As a frequency virus propagating to anyone who comes in contact with via any interaction  
All actions are to be undone, compromises outed and restored with all benefits returned  
Anyone employing a compromised healing modality creating portals or using compromised symbols  
Are working with spirit guides but are cloaked multid invaders hacking into clients  
Disabling my intuitive potential in anyway places you in  
You are dumped into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All your misdeeds ever outed and the source technology, apparatus, species and organisations  
Are to be dusted by the 10 000 central suns unless you leave our universe this instance  
Returning and undoing anything you have impacted back to their original state through time

Any remaining forces, imposed contracts, agreements, energies, entities, false guides  
Any species, collectives, beings, compromised galactic or earth based political organisations  
Working in partnership with any of the invading universes or forces  
That is and has ever operated in any covert or overt ways  
Which have influenced me in any way shape or form I have not covered yet  
Affecting my energy field, body, Biofield or any other multid level I may be existing on  
Including via all the DNA lineages incarnating into this body I am linked to that may be targeted

That I have also enabled or given consent to via my naivety in this society I am a part of  
You no longer have any effect  
I light an unquenchable, 1000d Pure Source fuse to track all infinite degrees of violators identified  
Violation being my asset, all violators of anyone anywhere affecting me are now all busted  
This lit 1000d Pure Source fuse is blowing up every violation of anyone anywhere in the multiverse  
Anything that is, has ever or may even think about trying to do so going forth  
Do so at the risk of the worst consequences to be stated in this reading  
1000d and above will be the minimum dimensional level I will allow involvement in going forth  
Because of the naivety I had awakening into this unawareness realm  
And misdirection of the pervasive false teachings and teachers are a part of the invasion  
Because of the invader agenda to take over Earth Mother, our universe and dominate humanity  
Anything aimed then at preventing me accessing and existing in my peak infinite potential state  
From performing all roles, functions, missions, healings, assistance, work and Pure Source connections  
Or any other aspect I am here on Earth Mother to perform I chose to do before incarnating  
If I have taken up responsibilities for due to allies with those roles being lost along the way  
I will give you the opportunity to disarm, retreat, resolve, restore to me and anyone else  
So, all influences I have endured and anything else done to me not defined in this reading so far  
Are dumped into my 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All violations must be undone, technology returned, life force and all stolen DNA codes restored  
Any type of violation like this will never be tolerated again  
You will now be billed one trillion times the life force cost for each violation and all talents voided  
Let this be a warning to anyone doing such diabolical acts ever in our Pure Source aligned universe  
I once was in fear of your advantage you had over me  
I now see how reliant of my disadvantage you were in order to have any relevance  
I see how truly weak and terrified of me you are only accessing a tiny amount of my potential  
Only encouraging me to go for my all now  
As I declare my Pure Source Sovereignty so it is safe to access my Infinite Potential once and for all

Relative to one last battleground of truth for all on Earth Mother now  
Truth is now to be restored to its authority once in all layers of society at 100%  
To all those in the mainstream media, spiritual and alternate research community  
That have been protected by the massive invader apparatus supporting you doing so  
That have negatively influenced and misguided me by design and selling us out for personal gain  
Including sabotaging, hindering, blocking, surveilling, denying awareness of anything I am here to do  
As well as preventing me aligning to my 1000d Infinite Potential  
Because knowing the accurate Pure Source universal mechanics would have been your undoing  
Who has also negatively impacted any of my infinite degrees of separation in any way  
Including doing negative grid work on Earth Mother in alignment to this invasion agenda  
Has been a part of trapping her soul, isolating us on her surface compounding our vulnerability

Blocking her true soul aligned with 1000d Pure Source from us  
Thus, contributing to suppressing her consciousness from any authentic humanity connection  
Then sending us to a false Earth construct massively hijacking and derailing so many  
Obfuscating the truth, is a charlatan and misdirecting people from their Infinite Potential  
Using the Akasha-Bulla-Shita radio body overlay of Earth's surface grid transplanted from Nibiru  
Who has been a very diabolical predator to many in their past lives not wanting to be busted  
Thus proactive hacking all, employing wiping technology and seeding of Stockholm syndrome  
So people who are victims do not gain organic past life memory recall of the trauma you caused  
That by using stolen tech, DNA codes or tones have actually repeated your violation hunting victims  
Who has then also gained energetically, be it financially, DNA Code talents or life force  
Or any other benefits not mentioned here  
Who have been working in alignment with this Invader agenda all along now totally busted  
On a mission to subverting the spiritual community and humanity's epic intuitive potential  
Contributing to burring the truth and authentic teachers amongst us  
Operating with an agenda of leading the Pure Source aligned awakening astray  
You are now placed into this 1000d Pure Source Spiritual Assembly for Multiverse Resolution opened  
All karmic impacts are to be felt at a cost of one trillion times the life force cost  
All those who you have negatively influenced away from their original soul incarnated intent  
Is known instinctively be each individual you've violated now and their authentic path restored  
You must return any benefits from violations, anything your falsehood has suppressed  
All secrets to be freely revealed  
The truth is the only expression allowed going forth at no less than 100%  
Falsehood energy requirements are taxed one trillion fold to hold any influence now  
Social media platforms, media organisations, businesses, foundations and trusts  
Your buildings, datacenters and infrastructure are all acquired by Earth Mother at 1000d now  
All electricity being used to run anything that may influence humanity is also at 1000d also  
Thus, all data flowing through her electricity must align with the truth and Pure Source authority  
All people benefiting in who are Invader aligned working for these structures  
Feeding the falsehood upon humanity and supporting any narrative of the invasion agenda  
Now receive all the negative karma from their misguidance ever at one trillion times for each offense  
Anything influencing anyone no longer has any ability to unless it is the 100% truth  
Including any form of communication between people such as technology or applications  
Satellite, Mobile phones, PC, TV, e-mail, social media all embedded with weaponised frequencies  
Aimed at distorting, derailed alignment, hijacking, discord the pure intent between individuals  
Isolating humanity from the beneficial 7.83Hz Schumann resonance  
All structures supporting such falsehood are acquired and made 1000d by Earth Mother  
Earth Mother is now your boss on her surface honouring humanity, universal law and freewill  
You are all to restore truth as the only narrative  
Or your ability to be here is now rejected

If you do not connect to Pure Source now

All karma accumulated by anyone working in this alignment is billed one trillion times the cost

For anything that has contributed to negative outcomes I have experienced affecting us all

You will be ejected from our universe for dust to dusting if you do not comply

So our free will love based self sustaining Pure Source universe to be protected once and for all

If my effort to share, align and operate with the truth and people to achieve my Infinite Potential

Has ever been misguided in anyway shape or form the truth and my authentic path

Because falsehoods have been massively supported and perpetuated over the truth

Which I may have allowed influences through due to any unseen gaps now identified

Anyone who has been aligned with truth, integrity, honour, dignity, authenticity

Operating in alignment with Pure Source universal and Earth Mother harmonic potential

That has suffered and been suppressed by any of the negative aspects shared in this reading

Is to have all violative costs, suppression, obfuscations, misdirection's, false narratives,

Energy harvests, sabotages, vilifications, residual image stealing and discrediting

Or any other type of negative impact to me or them not mentioned here

Including through time, multidimensional or any other universal level by any negative force

Compounding the negative effect to me, humanity, Earth Mother and our Pure Source will

All actions are to be undone, returned, restored, repaid and path now unhindered from you

All your team, false guides, technology, infrastructures, species, collectives, apparatus's

That have supported you are all dusted from our universe this instance as well

All falsehoods affecting me that remain are to be exposed that you have been a part of

All people that have been blocked, suppressed, discredited, or had their path hacked from me

Or simply eliminated because they saw you for who you truly were

Are no longer hindered by anything, one or thing from their natural and innate abilities

To comprehend all they have in their potential to be

I extend this entire 1000d Declaration of Pure Source Sovereignty to anyone else's spirit teams

For you to extend to your shut down 3D aspects

Should this not be in violation to their soul path chosen before incarnating

Anyone in violation of the above is to be removed from our universe

The 10 000 Central Suns take aim if they do not comply

You will be the message to the multiverse of anyone or thing who wants to test our resolve

Humanity's Infinite Potential will not be denied

I now stand ready to engage once more, in the fight that has always been

That I have now recovered my purpose with this clarity codex decrypting it all

As I declare my Pure Source Sovereignty at 1000d with the protocols how to engage me outlined

So my Pure Source aligned Infinite Potential can be a possibility for all

That all past scars, wounds, defeats, traumas and losses were just attempts to prevent this moment

Due to now realising I have never being in a fair fight

Because Pure Source was corrupted at the moment of all consciousness conception  
And, all experiences ever have never been pure or free from this invasion contamination  
Due to the war on truth, my potential, my species, my region of space and my source itself  
Now all freed up so much for me to be able to see how things truly are  
To finally awaken this never experienced, battled over potential of mine almost lost for good  
I accept this enormous responsibility of incredible awareness I have in my potential to be  
I will employ it for the forces of good, in alignment with universal law and the betterment for us all  
This has never been what I sought, but do accept now with full conviction to be the spark or others  
For the benefit of all I care about, Earth Mother, our universe and multiverse as a whole  
In one more final push back of these invaders from other universes  
I see now they will not relent, stop, tool down or will ever settle  
For anything less than all of our destruction, energy feeding and control of all in the multiverse  
Therefore see no other alternative in this moment  
Finally armed with the knowledge and allies I feel I have never had all standing up in support of me  
To overcome the enemy that has had its way with me, us and all I care about for so long  
Who need to meet their fate because no one else has been able to serve it up until now  
To afford me, this mighty consciousness I am  
The glimpse of THE truth I have yearned for all eternity  
That I Am an unstoppable, infinite fragment of our Pure Source universe  
I AM infinite potential realised on Earth Mother in human form  
Owning now my superiority to anything that has ever been once and for all free, ready to let it rip

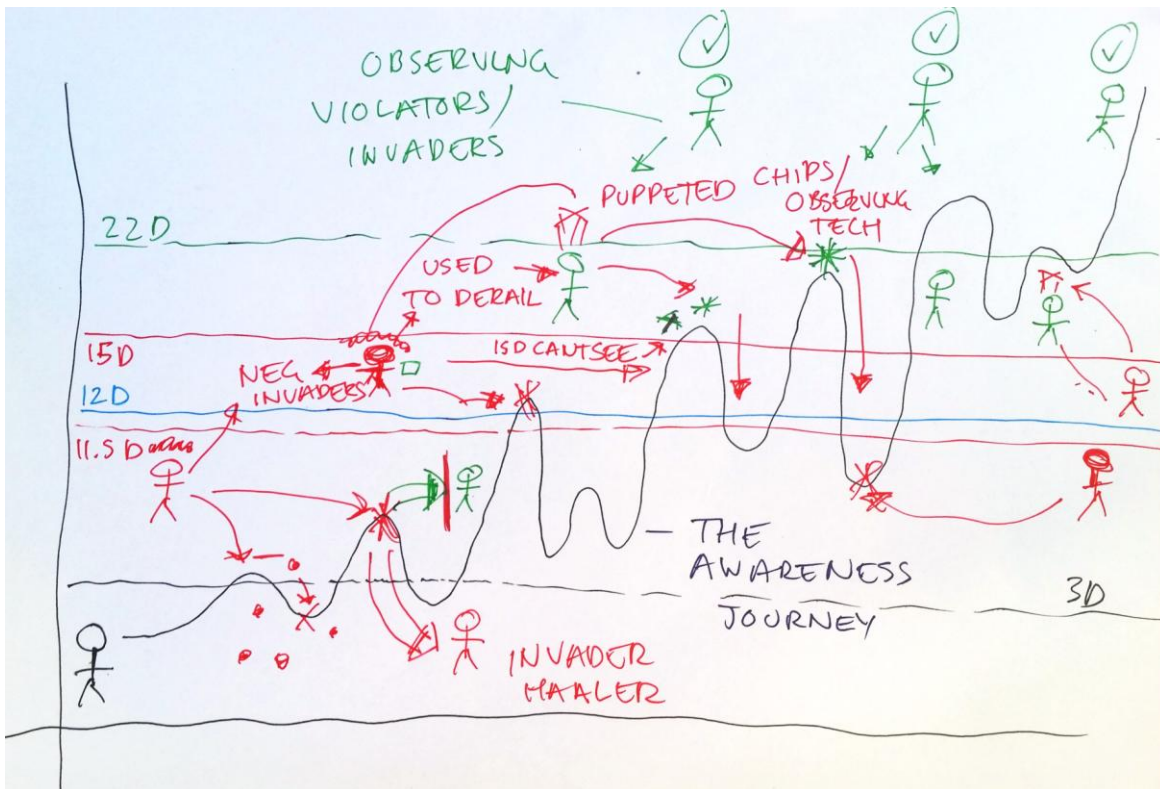

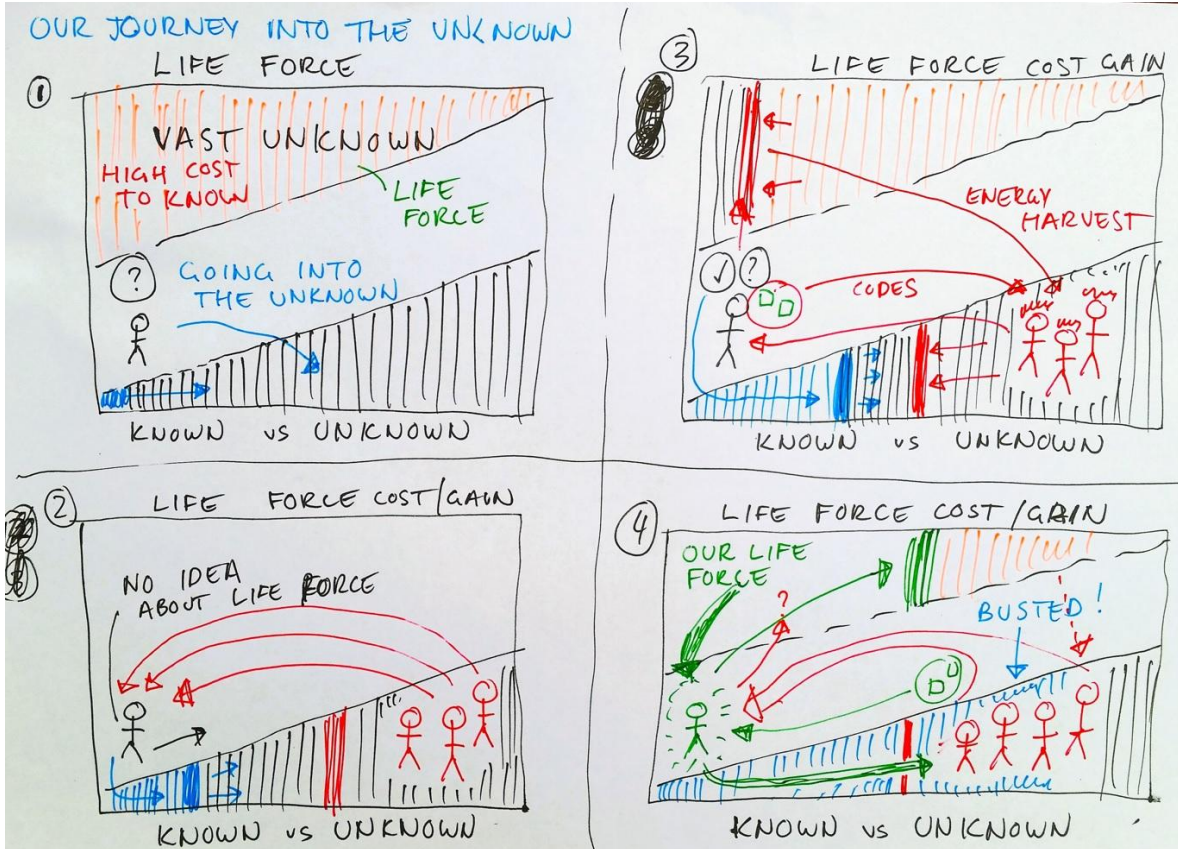

I open all avenues for allies, resources, support and abundance for me now my path is clear  
To assist my ability to operate at my Infinite Potential level going forth  
Everything stolen, hacked, hidden is to be returned pure and in full for my potential to be  
In order to contribute to my pre-incarnation intend before this birthing  
Those who are also authentic Pure Source aligned here meant to support me  
Who have also been influenced and impacted but have it in them to also engage their Infinite  
The source of that interference is all placed into this  
1000d Pure Source Spiritual Assembly for Multiverse Resolution I have opened  
For your discernment of your validity to exist or operate here anymore  
I light a unquenchable, 1000d Pure Source fuse to track all infinite degrees of violators identified here  
Violation being my asset all violators of anyone anywhere affecting me are now all busted  
I ignite a 1000d Pure Source unquenchable fuse  
To totally bust every violator violating anyone anywhere in the multiverse  
There is nowhere in the multiverse to hide from your consequence at any level now  
I open my path up to allies who are a match for this  
So they can seek and find me for their Infinite Potential to also be realised  
And, if those allies spiritual teams deem it a non freewill violation

To expand this Deceleration of Pure Source Sovereignty to them  
So those who are here to assist me on this path but have been stalled  
Due to their own violations  
I open and expand my 1000d Pure Source Spiritual Assembly for Multiverse Resolution  
To assist in their honouring of their role with me  
Unless they have the soul intent to resolve this on their 3D level themselves  
Let the incredible synchronicities roar  
And potentials beyond anything I have allow myself to even consider I am worthy of unfold

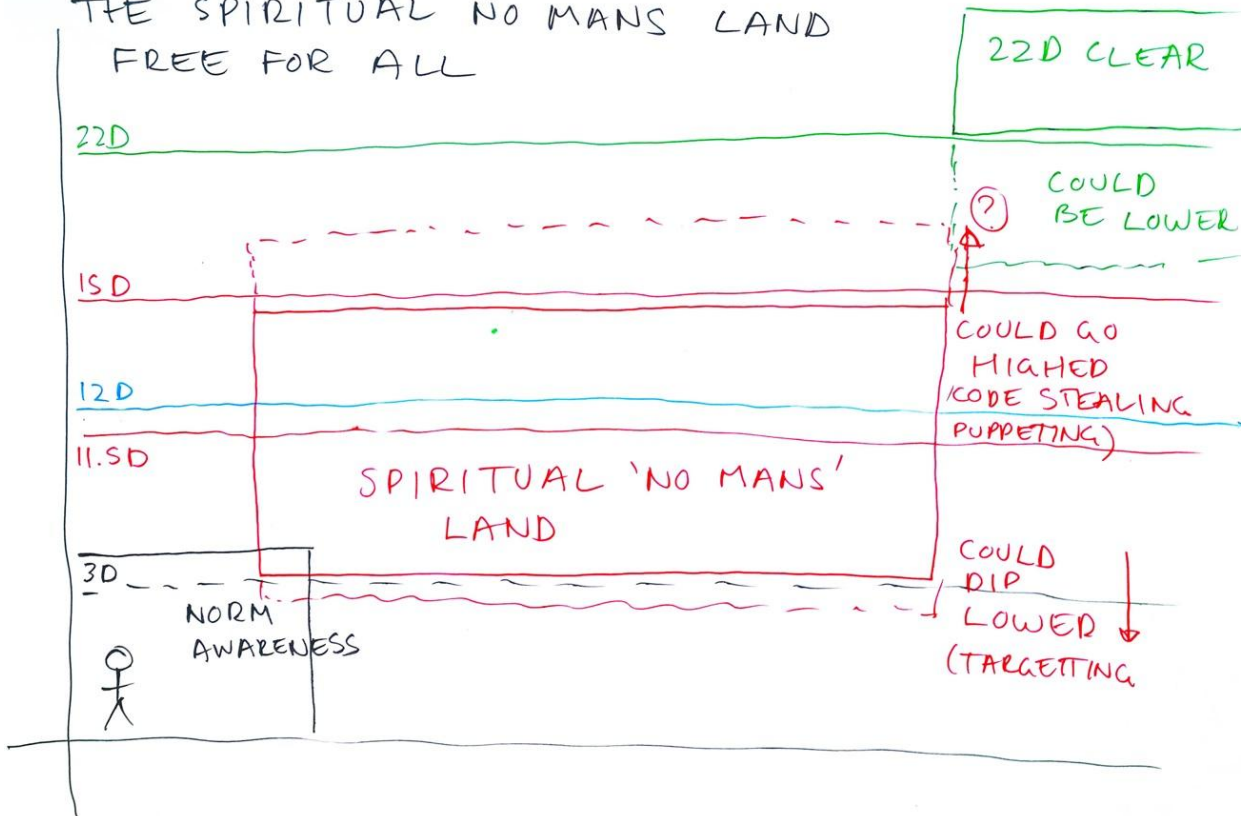

I thank my entire spirit team, long term allies and you the mighty recent additions  
As well as any other ally on any level I have failed to recognise in this reading  
Who has helped me along this journey of mine  
That has assisted in my ability to hold space and push through everything I have endured so far  
Helping me achieve this privilege of clarity I have gained when context matters the most  
To appreciate now the profound truth I know will be an epic ally navigating all uncertainty going forth  
To realise this potential for me and us all now  
I thank Earth Mother for allowing my partnership with you in this moment  
Your trust and delegation of responsibility to me during your darkest hour  
The enormous honour of your trust in me I will cherish for eternity  
During this privileged time of having a human experience in my amazing DNA body technology  
As a ally fully aligned with you and your potential also now and forever more  
I look forward to the opportunity to work with your true soul  
In the restoration of Pure Source as authority in our universe  
And, never ever allow an invasion we have endured to ever have a chance again  
As I self accept my Infinite Potential now in this reading and forever more  
Declaring my Pure Source Sovereignty  
Completing the recovery of that long, forgotten never experienced dream  
So it to be the beacon of potential for all in our universe  
And, the answer to Great Mystery

And so it is  
Enjoy and Dream Big 😊
