It's Good News to See Officer Getting Rough on Trash Dumpers

It is good news to a lot of people that Constable A. Barker has declared war on those who are so abusive of their rights as to dump trash on the streets and refuse to pay county taxes, often right in front of a person's home.

Warnings from law-enforcement officials in the past have gone unheeded. Judging the future by the past, those who practiced such littering of public property felt they were perfectly safe. That is, they were not until now. Constable Barker, however, has answered the complaints of the many and last week

East Texas Is Proud of Mr. Page

East Texas is proud of its contribution to the Texas department of the American Legion commander in L. E. Page of Carthage, for the ensuing year.

Those who know the Carthage Legionnaire predict for the state department a progressive year of growth and one of service to the legion and the people of Texas.

Land of Lincoln? It Doesn't Matter

A resident of Illinois looks darkly upon that state's plan to put the legend "Land of Lincoln" upon its 1953 car license plates. When Illinois was first a part of the Union, the Illinois man, signing himself A. B. in a letter to the Chicago Daily News, the reference to Lincoln will be regarded as an insult. The cars will be battered and defaced by indignant Southerners.

We're inclined to agree with the Abilene Reporter-News, which says that A-B is full of prejudice. Whatever the full of it, he will discover that Southerners won't pay any more attention to the Illinois slogan than they do to New Mexico's "land of enchantment" or to any other words which please may bear. If there is any resentment whatever, suggests the Abilene paper, it will be due to the belief that Lincoln belongs to all the nation and not to Illinois alone.

One can occasionally see Confederate flags displayed in the South and we would not say that regional consciousness has wholly vanished. But it doesn't prevail to the extent that the letter-writer seems to think. A generation has grown in the South that isn't about such things.

HAT TEXANS SAY:

The great strides made in the science of agriculture have resulted in such an increase in individual output that the field of agriculture must be expanded to meet the demand for food. This has been brought about by the highly mechanized operation of a few big farms. The result is that the small farmer is being crowded out of the market. The government should take steps to protect the small farmer by providing him with the same facilities as the big farmer. This can be done by providing him with low-cost loans and by providing him with the same tax treatment as the big farmer.

QUOTE-UNQUOTE:

What I could tell you, you wouldn't print. Therefore, I say no comment. — Mr. Truman answers newsmen's question on his being subpoenaed by Senator McCarthy.

Sydney Rhee is a frustrated old man who is found to agree soon or later to the Allied armistice terms. — Dr. S. S. Nehru, cousin of India's time Minister Jawaharlal Nehru.

IBLE VERSES

If we confess our sins, he is faithful and just to forgive us our sins and to cleanse us from all unrighteousness. 1 John 1:9.

Let us therefore follow after the things which are for peace, and things whereunto one may attain another. Romans 14:19.
