ABOUT NEWDIAMOND TOKENS

In the fast-evolving world of cryptocurrencies, a new player is emerging, and it's promising early investors a golden opportunity. NewDiamond was created on the Binance Smart Chain Network (Bep20) is set to revolutionize the market with good return on investment. These tokens is gearing up to become one of the most expensive cryptocurrencies globally.

What makes this cryptocurrency different from all others is that only 1,000 coins were created to be in existence, unlike other coins founders who created theirs in millions, billions and trillions. NewDIAMOND Team is creating a system to make it very scarce, valuable and to automatically become very expensive.

Gold and Diamond are expensive because they are limited in supply. NewDIAMOND Team are using the strategy of RARITY. The price of 1 token has the potential to rise to \$1000 USD to \$100,000 USD in the nearest future.

OUR UTILITIES

NewGold Token will be used for transactional purposes, to serve as a payment gateway in our upcoming social media app and ecommerce platforms. Users could use NewDIAMOND to buy goods and services from merchants. This would cause a daily massive usage, attracts many investors and help the price to rise.

MAIN PURPOSE FOR NEWDIAMOND

The major purpose of the creation NewDIAMOND is to raise funds for the funding of our main project of building our video social media App.

ROAD MAP FOR NEWGOLD 2.0

PRICES:

We expect the prices of each token to hit \$500 in August 2024, \$1000 USD before September 2024 and at \$100,000 USD within the period of 3 years. Our tokens will be scarce, valuable and expensive.

AIMS AND OBJECTIVES

① EMPOWER FINANCIAL FREEDOM:

Our mission is to empower individuals with the tools and opportunities to achieve financial freedom. We believe that everyone should have access to fair and inclusive financial services, irrespective of their background or location.

② FINANCING:

We aim to revolutionize the age-old standards of conventional financing by leveraging cutting-edge technology and innovative financial solutions. Through our platform, we seek to challenge traditional norms and provide a more efficient and user-centric approach to borrowing, lending, and earning.

③ DRIVE SUSTAINABLE GROWTH:

We strive for sustainable growth and long-term value creation.

④ To make our tokens the most expensive cryptocurrency in the world.

MARKETING APPROACH

We employ a multi-channel approach, leveraging social media, partnerships, and targeted campaigns to reach potential users and investors globally. By showcasing the unique benefits and features of our tokens, we aim to attract a diverse user base and foster widespread adoption. Our marketing efforts are backed by a dedicated team focused on building strategic partnerships, educating the community, and creating engaging content to ensure the success of our token in the competitive De-Fi landscape.

GOVERNANCE

We believe in the power of community participation and democratic decision-making. We have implemented a robust governance framework that empowers token holders to actively shape the future of our protocol. Through voting mechanisms, users can propose and vote on key decisions, such as protocol upgrades, fee structures, and partnerships. This inclusive approach ensures that the community has a direct say in the direction and evolution of our tokens, fostering a sense of ownership and empowerment among our users.
